*Carl N. Freyman*  
*4-64*

At the conclusion of his training period Mr. H. H. Clegg said he presented a satisfactory appearance, his class work was satisfactory, however, it was believed he would need more than average supervision in order to develop the most work. He appeared to be no more than average, seemed interested in the work and should develop with experience. He was qualified in the use of all Bureau firearms, although he needed additional attention on the Practical Pistol Course and .30 rifle.

RECORD IN GRADE CAF - 9, \$3200: On 4/25/42 he was assigned to Newark.

On 6/12/42 SAC Conroy rated him GOOD and said his reports were above average and required only an average amount of supervision for an agent of his experience and reflected that his investigations had been conducted in a thorough and well organized manner. He was a hard worker and indicated a desire to perform his duties to the best of his ability. He dressed neatly, presented a good appearance and possessed a somewhat quiet, but likeable personality. He was capable of representing the Bureau in a satisfactory manner. He was cooperative and amenable to criticism, and the services he had rendered were considered satisfactory. He made an acceptable witness.

On 8/17/42 SAC Conroy rated him GOOD and said he presented a good appearance, had a pleasing personality and made a good impression on those with whom he came in contact. He was enthusiastic about the Bureau's work, was amenable to supervision and was willing and anxious to learn. It was believed he would develop into an acceptable witness. The rough draft material he submitted was always in neat form. He conducted his investigations in an intelligent and logical manner, his reports were well written and required only an average amount of supervision. He was very conscientious and handled a good volume of work.

On 8/20/42 he was transferred to New York

On 10/4/42 Assistant Director Foxworth rated him GOOD and said he was neat in appearance, was serious in his attitude toward his work, turned out a satisfactory volume of work, was very conscientious with regard to making a good and complete investigation; had shown good progress and was average for the length of time he had been in the service. He indicated a good amount of enthusiasm with regard to his cases, was amenable to discipline, needed only an average amount of supervision, dictated satisfactorily, and it was believed, capable of planning his work well. He had not been used on dangerous assignments but it was believed that under proper supervision, he could perform such duties to good effect. On the whole he had shown good progress. On 12/1/42 he was reallocated to CAF - 10, \$3200 per anum.

RECORD IN GRADE CAF - 10, \$3500: Mr. Clegg interviewed him during In-Service Training in February, 1943 and said he created a nice appearance, was about average as to personality and displayed considerable interest and enthusiasm. It was believed he was thoroughly anxious to succeed and do a good job with regard to his work in the Bureau. He talked well, although somewhat quiet and <sup>was</sup> not as forceful as might be desired. It was believed he would show steady improvement and substantial progress with additional experience, because of his apparent interest and basic intelligence.

During an inspection of the New York Office in March, 1943, Inspector [ ] said he was neat and somewhat scholarly in appearance. He was conservative in dress, was mature for his years and would improve himself if he developed more force and aggressiveness. He had de-

veloped and should continue to do so along investigative lines. Status: GOOD.

On 3/31/43 SAC Conroy rated him GOOD and said he was neat, serious and enthusiastic. He was conscientious and performed a good and complete investigation with average supervision. He had a fair knowledge of Spanish which he had made use of during his assignments. He was quiet, perhaps a little too quiet, and needed more aggressiveness and polish. When he had obtained these it was felt he would become a better than average agent. His dictation was satisfactory and it was believed he would develop into a satisfactory witness. It was not felt he was ready for dangerous assignments. He was qualified in the use of Bureau fire-arms but appeared to be weak with the revolver and had not improved as much as might be expected. His contacts appeared to be entirely satisfactory as was his ability to organize and initiate investigations. His work in technical surveillance was satisfactory.

On 3/31/44 SAC Conroy rated him VERY GOOD and said he was mature and serious minded, neat in appearance and enthusiastic in his attitude toward his work. He was conscientious and performed a good and complete investigation with only average supervision. He had a good personality and made a favorable impression as a Bureau representative. Since his 1943 annual efficiency report at which time it was said he was perhaps a little too quiet, he had made distinct advance upon this line and was considered to be sufficiently aggressive. It was believed he might have latent supervisory and administrative ability and that he was developing into an above average Agent. On 6/1/44 he was reallocated to CAF - 11 \$3800 per annum.

b6

RECORD IN GRADE CAF - 11, \$3800 per annum: During an inspection of the New York Office in August, 1944 Inspector [ ] said he had a quiet, studious type of personality and yet appeared to possess sufficient force and aggressiveness. He appeared to be the conscientious, sincere type who could be depended upon to perform in an entirely satisfactory fashion. In view of his extended period on Sutech, it was felt that every consideration should be given to providing him a more general investigative experience. He appeared to be loyal and might have latent supervisory ability. Status: VERY GOOD.

[ ] interviewed him during In-Service Training in November, 1944 and said he made a good personal appearance, had a pleasant personality but seemed slightly nervous. He was at least average in intelligence and appeared interested in the Bureau's work. During the interview he mentioned he had been assigned to a Sutech in New York practically since his entrance in the Bureau. He has had very little if any investigative experience. Status: GOOD.

On 1/25/45<sup>a</sup> he was transferred to Norfolk, however, in letter to the Director dated 1/30/45, he requested consideration that he be transferred to a mid-western office due to personal reasons. On 2/3/45 he was advised his pending transfer to Norfolk was cancelled and he was directed to report to Chicago.

It had been noticed that this Agent, in the past, had objectionable mannerism (twisting of hands and head) while testifying. By letter dated 2/7/45 SAC Conroy advised this agent had eliminated these objectionable mannerisms and he was qualified to testify with credit to the Bureau and himself.

On 2/16/45 he was transferred to Chicago at his request.

On 2/15/45 SAC Conry rated him VERY GOOD and said he was a mature individual, presented a neat appearance and had an enthusiastic attitude towards his work. His work required an average amount of supervision. He had a pleasing personality and made a good impression on persons with whom he came in contact and it was believed he was capable of favorably representing the Bureau. He had sufficient aggressiveness to handle his work in a competent manner. His work had been highly satisfactory, he had applied himself to his duties and had indicated a willingness to accept responsibility. He had exceptional ability to handle the Spanish language and his knowledge had been used extensively during his assignment. It was believed he might have some latent supervisory or administrative ability and it was felt he might be above average.

As a result of an increase in basic salaries, effective 7/1/45, his salary in Grade CAF - 11 was increased to \$4300 per annum.

His salary in Grade CAF - 11, was increased to \$4520 per annum effective on 12/3/45 under the provision of the Uniform Promotion Act. <sup>b6</sup>

On 3/31/46 SAC McSwain rated him EXCELLENT and said he made a very neat and businesslike appearance, possessed a friendly and agreeable personality, displayed above average initiative and resourcefulness and exercised sufficient force and aggressiveness in the performance of his duties. He was a very good dictator, demonstrated he was capable as a Government witness, and was qualified in the use of all Bureau firearms. He could be used in dangerous assignments. His reports were unusually well written and required a minimum of correction. The volume of his work was far above average and he made worthwhile contacts. He possessed ability to organize his work without profuse advance instructions and followed through to a logical conclusion; was at all times willing to accept responsibility and discharge same in a capable manner. He was intensely interested in his work and could be considered a very loyal, conscientious and valuable employee. He operated successfully on physical surveillances. He had not demonstrated he possessed more than average supervisory ability, however, it was noted he had had no opportunity to demonstrate same other than in the handling of his own cases, which he had done in a thoroughly competent manner.

As a result of an increase in basic salary, effective July 1, 1946 his salary in Grade CAF - 11 was increased to \$5152.20 per annum. On 7/28/46 he was reallocated to Grade CAF 12, \$5905.20 per annum.

On 3/31/51 SAC McSwain rated him SATISFACTORY and stated he was a mature, veteran agent and was very conscientious and enthusiastic about his work. His investigations were very thorough, requiring a minimum amount of supervision and his reports reflected careful preparation and organization, containing the average number of errors. He was rated an excellent dictator. During the rating period, he had been assigned the investigation of Communist front groups, Communist infiltration of labor unions, and Key Figures connected with those organizations. Two of these groups, the International Workers Order and Communist Infiltration of the United Packinghouse Workers of America-CIO required a considerable amount of detailed work and investigative efforts, as well as close supervision on the part of the agent, which this Agent handled in a very capable manner. He had also handled Sabotage and Labor Management Relations Act cases, and had had the responsibility of supervising several live informants. He was rated within the upper limits of Satisfactory.

On 7/8/51 he received a basic increase to \$7640 per annum in GS-12.

By memorandum dated 9/12/51 he was recommended for attendance at the approved indoctrination course to be held 9/17 and 9/18/51, preparatory to interviewing high level Communists as potential informants. This recommendation was approved.

On 9/12/51 SAC McSwain rated him SATISFACTORY and said he had been assigned duties in connection with the development of informants, particularly interviewing of persons suspected of being defectees from the Communist Party. His work in this connection had been thorough and satisfactory.

By letter dated 2/2/52 he was awarded the Ten-Year Service Award Key.

On 1/30/52 SAC O'Connor rated him SATISFACTORY and said that since the instigation of the TOPLEV Program, he had been assigned exclusively to this project. He had an excellent grasp of Communist theory and had handled all his work with regard to Communist investigations, as well as the work involved in the TOPLEV Program, in a very capable manner. On 3/2/52 he was reallocated to Grade GS-13, \$8360 per annum.

On 3/31/52 SAC O'Connor rated him SATISFACTORY and said his paper work required a minimum of supervision and correction. Since September, 1951 Agent Freyman had been assigned exclusively to the Toplev Program and had handled all work in connection with this program in an excellent fashion. He had conducted numerous surveillances and had voluntarily contributed many hours after duty in connection with this program. During the rating period he had developed several excellent Communist informants and prior to his participation in the Toplev Program handled informants in a very excellent fashion. He was a hard-working, enthusiastic, loyal employee of the Bureau. He was rated as an excellent dictator and had ability to handle complicated cases.

His overtime average for March, 1952 was 1 hour 50 minutes.

By memorandum dated 4/22/52 his SAC submitted his name to be considered on a long range basis for development.

He attended In Service Training from 7-14 through 7-25-52.

Effective 8-3-52 he received a Meritorious Increase to \$8560 per annum in GS-13 in view of his outstanding and extremely important work performance in the field of national defense in developing highly confidential information deemed particularly essential to the internal security of the country, which information would not otherwise have been available. He had exhibited unusual diligence and application in the performance of the tasks accomplished.

By memorandum dated 12-5-52 his SAC was advised Bureau authority was granted to utilize the services of this agent for week-end supervisory duty.

By memorandum dated 12-5-52 his SAC submitted his name in connection with the Bureau's Personnel Advancement Program and said he had not received training along supervisory lines, & it was believed that because of his enthusiasm and thoroughness, he could readily adapt himself to that type of work. He got along very well with the public and his fellow agents. He was available for any assignment the Bureau may consider him qualified for; however, his preference was in the investigative field.

On 3-31-53 SAC Malone rated him SATISFACTORY and said during the period he developed two security informants who were members of the Communist Party, several sources of information concerning the Communist Party and trade unions, and recently assisted in securing an additional potential security informant who may have possibilities of reactivating in the Communist Party. He also assisted in the development of security informant in a front group, which security informant had since moved from the area and was presently an informant for another field division. A considerable portion of his time had been spent in the development and handling of CG-5824-S, a former national leader of the Communist Party and formerly District Chairman of District #8, Communist Party, who had been ill for several years and was attempting to reactivate in the Communist Party at a high level. While this informant

had been unable to reactivate as yet, he had furnished considerable valuable information concerning past and some current Communist Party activities. He was a very good investigator, and was capable of handling complicated type investigations. He required the average amount of supervision and his paper work contained the average number of errors.

His daily average overtime for April, 1953 was 2 hours 1 minutes with no travel overtime.

By memorandum dated 5-28-53 his SAC was advised Bureau authority was granted to utilize this agent as a relief supervisor.

On 6-8-53 he attended the Toplev Conference held at the Seat of Government.

On 8-30-53 he received a uniform promotion to \$8760 per annum in GS-13.

On 3-31-54 SAC Banister rated him SATISFACTORY and said a considerable portion of his time during the past year had been spent in continued development and handling of CG 5824-S, a highly placed informant of the Chicago Office who was in a position to furnish information on both a local and national level concerning the CP-USA. This informant was extremely valuable and information obtained from him was handled in a highly commendable manner by this agent. His written work was always comprehensive, detailed and well organized, and required very little correction. He required very little supervision and his attitude towards the Bureau's work was considered outstanding. He had exercised extremely sound judgment in the handling of the above informant, as well as the collateral handling of the informant's wife. His productivity was extremely high and he contributed generously of his own time in handling his work. He had a wide amount of experience in the Security field, and had assisted in acclimating new agents on the squad. He had been constantly alert to make worthwhile suggestions which would improve the work of the Chicago Office in the Security Field. In addition to handling the above two informants, he was assigned the case on the CP-USA District #8, which required extremely sound judgment in the handling of that case as well as the reporting of information obtained. He assisted in the development of two additional potential security informants who showed promise of furnishing valuable information. He had also developed [redacted] from a Confidential Source into a qualified Security Informant. He was well qualified in the use of firearms and defensive tactics and was fully qualified to assist on dangerous assignments and raids. He was rated excellent in dictation. b7D

By memorandum dated March, 1954 his SAC submitted his name in connection with the Bureau's personnel advancement program and said although he had received limited training to date along administrative lines, he was a relief supervisor in security work. He was available for any assignments the Bureau may consider him qualified for. He was desirous of advancement in the Bureau, however his stated preference was in the investigative field.

By memorandum dated 4-13-54 his SAC submitted his name in connection with the Bureau's Personnel Advancement Program.

By memorandum dated 7-26-54 his SAC recommended that he be designated Supervisor of desk number 11 in the Chicago Office. In connection with this recommendation, by memorandum dated 8-10-54 his SAC was advised that the stated preference of this Agent was in the investigative field. The SAC was informed the Bureau desired that supervisory positions be filled by those Agents who were interested in further advancement along administrative lines and who were considered capable of such advancement. Accordingly, the SAC was instructed to discuss this matter with this Agent and determine if he was interested in advancing along administrative lines at the present time. The comments of the SAC concerning his capability for such advancement were also desired.

By memorandum dated 8-16-54 his SAC advised he had frequently stated his preference for investigative work. However, the SAC had presented to him the challenge to his ability offered by advancement to this supervisory position. He had accepted that challenge. The SAC stated he had great ability as an investigator in Internal Security matters. Since he was willing to accept the problems and responsibility of a Supervisor, there were advantages to be gained in that he would be able to guide and supervise the work of agents and help to solve their problems because of his skill as an investigator. The SAC considered him capable of advancement along administrative lines and stated the position for which he had been recommended would permit a testing of such ability. b6 b7C

During an Inspection of the Chicago Office in September, 1954 Inspector [redacted] stated he was one of the most experienced security men in the office, having had 11 years' experience in that work. He was interested in advancement and was fully available. Two substantive errors were noted in 317 pending files and none in 34 closed files reviewed on his desk. He was not responsible for either of the errors noted. Errors of form amounted to 5.68% in pending and 2.94% in closed, both under the office average. He had not been a supervisor long enough to judge the quality of his supervision. He appeared enthusiastic about desk work and his experience should qualify him to supervise security work. No administrative action was taken and it was recommended that he be approved as full-time supervisor on security work.

By memorandum dated 10-22-54 it was recommended and approved that he be designated Supervisor of Desk Number 11 (Security - Industrial Division). However, by memorandum dated 10-29-54 his SAC recommended that he be approved as Supervisor of Squad #8.

By memorandum dated 11-1-54 his SAC was advised he had been approved as Supervisor of Squad #8 (Security-Major Groups).

By letter dated 11-4-54 he was COMMENDED for his able assistance in the supervision of a surveillance of [redacted] member of Communist Party Underground, who had been missing, and determined his present address.

By letter dated 1-6-55 he was CENSURED inasmuch as it had come to the attention of the Bureau that in the Security Matter case involving [redacted] [redacted] it was determined in September, 1954, that certain facts set out in a report of the Chicago Division dated 2-25-54, were not correct but an amended report was not submitted until 12-21-54. This matter was under his supervision after 10-15-54, and he was derelict in not seeing to it that the amended report was promptly submitted.

On 1-21-55 SAC Hostetter rated him SATISFACTORY and said he had the ability to handle any type of case in the security field. He had clearly demonstrated that he had an unusual knowledge of Marxism since he had read extensively on the theories of Communist ideology. He had done some excellent work in the Security Informant field. He was an extremely hard-working, energetic, enthusiastic agent who had demonstrated that he did have supervisory ability. During the past sixty-day period he had supervised the squad responsible for handling major groups, which was now known as Security Squad Number 2. In conjunction with his duties he handled the supervision of front groups, front group key figures, Communist Party Key figures and top functionaries. In addition, he had the responsibility for the supervision of the Communist Party, USA, and other basic revolutionary organizations. He had demonstrated the ability in the short period of time he had performed as a full-time supervisor that he had the confidence of the personnel working for him and it was believed that he would continue to do a good job in a supervisory capacity. Honorable J. Edgar Hoover  
Director, Federal Bureau of  
Investigation  
Washington, D. C.

Re: Membership cases before SACB

Dear Mr. Hoover:

The initial series of Communist Party membership petition cases before the Subversive Activities Control Board was terminated by the completion at Seattle, Washington, of the [redacted] hearing. The fine assistance rendered by your Seattle office contributed in large measure to the successful presentation of this matter. I would particularly like to make mention of the valuable assistance rendered by Special Agents [redacted] and [redacted] at the Seattle hearing, and the untiring efforts of your Resident Agency at Spokane.

On January 25, 1963, the Claude Mack Lightfoot membership petition hearing concluded in Chicago, Illinois, and on Tuesday, January 29, 1963, the [redacted] case concluded in Washington, D. C. I again want to avail myself of the privilege of expressing to you personally my appreciation, and that of [redacted] and his staff, for the outstanding cooperation received from members of your Chicago office. Mr. Carl Freyman, Supervisor, and [redacted] who assisted at the counsel table, were most helpful in every possible way. The Lightfoot case demonstrated, possibly more than any of the other cases, the outstanding job accomplished by the Bureau in enlisting the support of the Negro race to assist in eradicating the menace of Communism from the real struggle of the Negro for civil rights.

## RECOMMENDATION FOR INCENTIVE AWARD

Recommendation for incentive award for SA [ ] is based upon the continued sustained outstanding performance of this agent, including the overcoming of unusual difficulties in the handling of the operations of CG 5824-S\* on a day-to-day basis from February 1, 1962, to January 15, 1963. A similar recommendation is being made on SA WALTER A. BOYLE, the alternate contacting agent for CG 5824-S\*, for his sustained above average services from the period of March, 1962, to January 15, 1963. During the entire period this case was supervised by SA CARL N. FREYMAN on whom similar recommendations are being made.

b6  
b7C

Recommendations are also being made for [ ] who is the principal stenographer assigned to the handling of CG 5824-S\*'s material and who during the pertinent period handled the large bulk of the materials furnished by CG 5824-S\*, and for [ ] who is also assigned to handling CG 5824-S\*'s dictation in the absence of [ ] and full-time with [ ] when the need arises. Such instances of full-time assignment of these stenographers occurred at the culmination of the last Solo mission on December 17, 1962, and has continued through the holiday season until the present time.

As the Bureau is aware and as the result of the outstanding guidance and performance of the contacting agents, the outstanding performance of CG 5824-S\* was culminated in the 11th Solo mission of this operation which occurred between October 16 and December 17, 1962. Details of these outstanding results will be summarized hereinafter.

As a result of the continued outstanding performance of agent personnel in the handling and guiding of this informant, additional outstanding results were obtained by the Bureau concerning the international communist movement and in the continued penetration of the Communist Party, USA (CPUSA) leadership to a point which has never been previously achieved in the history of the Bureau.

The past year marks the 11th year of the operation of CG 5824-S\*, and each year, including the past year, the operation headed by CG 5824-S\* with the most able assistance of NY 694-S\*, achieved new and unduplicated outstanding results.

The year 1962 again presented many problems involving the continuance of the Solo operation itself, as well as the problem of continuing to keep CG 5824-S\* in a position where he was able to obtain outstanding information. Agent personnel assigned to this task, because of their devotion to their duties, in each instance proved their ability to meet all situations successfully. Many pitfalls were overcome by these agents in carrying out this operation and they were overcome through initiative and willingness on the part of personnel to work and to be able to service this informant on a 24 hour, seven day a week basis.

It is felt that the accomplishments of the operation alone support this recommendation for incentive award. In this regard some nine volumes of information alone concerning the CPUSA movement and its activities at the highest national levels were obtained. The Solo mission just completed provided the Bureau with approximately 400 pages of information concerning the international communist movement at its highest levels throughout the world and, in addition, provided extremely valuable documents not otherwise available to the Bureau from any other source relative to the Soviet Union-China conflict, the 12th Congress of the Czech CP and the 8th Congress of the Hungarian Socialist Workers Party. It is felt that extremely valuable intelligence information to the President of the United States, to the Secretary of State and to the Central Intelligence Agency, and in some instances to the military intelligence agencies, was obtained from this mission.

The maintenance of the Solo operation during the past year has additionally resulted in inestimable savings to the Bureau in time and work, including physical surveillances and investigations since many of the meetings and events were covered by no other informant and the information obtained was unavailable from any other source. In the Illinois District alone it is conservatively estimated that the services of CG 5824-S\* have released six agent personnel from physical surveillances and related work because of the services of this informant. At a national level it is believed this figure in savings of agent personnel and time is even greater. Even though the utilization of any amount of manpower would have been necessary, in many cases, some of the results in the form of information which this informant obtained could not have been accomplished.

To sustain the operation of this informant at his present high level during the past year agent personnel assigned to this matter have made major sacrifices on a continuing basis to their families and their home lives due to the fact that their services must be available on a 24 hour a day basis. These agent personnel have overcome these difficulties of contacting this informant in secure ways and have most capably handled and reported the voluminous information received from this source in a most expeditious and detailed manner. All of the informant's information is received orally, the bulk of which is obtained by phone and therefore must be carefully received, organized and reported.

The agents' overtime has been consistently high as a result of the requirements of this operation. For example, during December, 1962, both contacting agents had 4'58" overtime. In January, 1963, their overtime is expected to be correspondingly high. In addition to the recorded overtime of these agents, it is noted that the informant frequently makes contact with the contacting agents at their residence at night for purposes of reporting expedite and detailed information concerning meetings which he has immediately prior thereto attended. None of the overtime rendered in this fashion has been considered in their overtime credit in this operation. On an over-all basis, it is believed that the quality of the work which has been done by the agent personnel handling this informant has during the past pertinent period been outstanding in every regard.

#### Investigative Problems Involved

As the Bureau is aware, this most complex operation is the subject of continuing difficult problems because of the nature of the operation itself. The contacting agents have anticipated and controlled these problems in every instance during the pertinent period.

This informant is currently operating at the highest levels of the CP at the international, national and local levels. The goal of placing him in this position has been reached, and during the pertinent period the responsible personnel have successfully maintained this level of operation through an extremely close relationship with the informant and by anticipating all the problems and pitfalls which might or could occur in the maintenance of this operation.

A problem of continuing nature which has been successfully handled by agent personnel is the problem of attempting to work with an extremely sick informant and to keep him in a frame of mind that causes him to continue through a motivation of patriotism alone to serve his country, in many instances at the risk of his life, so that he might on a daily basis provide the Bureau and the government with the highest type of intelligence information in the communist field. Agent personnel succeeded in this objective through a close relationship with the informant and by aiding him in numerous ways to make the informant's job a little easier so that he could devote as much time as possible to his ultimate objective without diversion.

The success of the agents' indoctrination of the informant resulting in his desire to continue to assist his country is exemplified most clearly when during the current Solo mission and before the informant and his wife crossed into Soviet territory, the Cuban situation developed. The informant subsequently advised that when he learned of the Cuban situation he was in Austria and he analyzed the situation in the light of should he continue on his mission or should he return. It was obvious in this discussion that the agents had so indoctrinated the informant as to the need for this trip that the informant at the risk of his life decided to proceed on the assigned mission. One of the comments the informant made in this regard was that if the agents had not convinced him that he had full security in his operation he would never have continued his mission.

A completely new problem overcome by the agents during the period in question was the fact that the informant due to the loss of his previous wife and his desire for new companionship decided that he could no longer live alone and indicated a desire to remarry. Many long hours of discussion were had with the informant by the personnel involved planning and devising ways and means in which this marriage could be accomplished without jeopardizing the operation. The agents carefully worked out each step, were firm in securing commitments from the informant and in seeing that they were carried out. It is pointed out that agent personnel in this regard were operating in an extremely delicate area where utmost discretion and tact were necessary, yet they succeeded in having frank and forthright discussions with the informant in obtaining his full cooperation. As a result of this successful handling of this delicate matter, the operation was sustained and, in fact, it is felt that at the present time, if anything, that it was strengthened because the informant has found in his present wife a willing worker and an aid, and the informant's stability and frame of mind are excellent.

A third item of problems overcome by these agents relates to the second in that the informant married a wealthy woman who is currently financially independent. Contacting agents faced with this problem have succeeded in indoctrinating the informant by convincing him of the need from a patriotic standpoint alone of the urgent need to continue his operations at the risk of his life and limb on a daily basis for the government.

The fourth problem overcome by agent personnel was to instill in the informant the need for the continuance of the operation when, in fact, his health has, at times, been very delicate. It will be recalled that during the pertinent period the informant had a serious operation a short time prior to the most recent Solo mission. This operation was at the lower extremity of his back and has been in the form of an open wound which has existed in this area for over a year. This wound requires constant bandaging and care, and for this reason alone the informant could have justified his not attempting the past Solo mission. Contacting agents successfully convinced the informant of the need to make this trip despite his condition of health.

A fifth difficulty successfully overcome on the initiative of agent personnel was in the preparing of a completely new fictitious cover for utilization in this Solo mission. This cover and its preparation required much study of regulations and the law, of the maintenance of public records, tactful inquiry at agencies involved in order to secure difficult documentary materials including birth certificates, etc. It also required intensive and detailed briefing of the informant relative to a fictitious background and residence, his cover business, on briefing him on his biographical background and also briefing him on how to brief his wife in connection with the Solo mission. This phase of the operation also entailed the preparing of a partial cover for the informant's wife who travelled with him, and on each phase of this delicate operation agent personnel performed outstandingly with imagination and initiative.

A sixth problem successfully solved by agent personnel and particularly by SA BOYLE as the new alternate contacting agent for this operation was in acclimating to the personality of this informant, his moods and his methods of operation. Supervisory personnel in contact with the informant have learned from the informant that he has full respect for the judgement of the agents, that he respects their ability in handling and

reporting his information and that the personal relationship with him is excellent. This is a result of special efforts on the part of agent and supervisory personnel in recognizing that the success of the continued operations of this informant depends on a close personal relationship.

SA BOYLE has been the alternate contacting agent on CG 5824-S\* since March, 1962. Because of the extensive volume of information furnished by CG 5824-S\* and the numerous problems related to this operation including the cover, required research resulting from information received, etc, SA BOYLE has been responsible on a continuing basis for the handling of these detailed problems.

In addition to assisting SA [ ] in the over-all handling of the informant, he has developed a close relationship with the informant and has studiously undertaken his responsibilities by familiarizing himself with the extensive files maintained and by outside reading so that he could intelligently assist in reporting this information. It is noted that in working with this informant, it is necessary for responsible personnel to be familiar with the communist movement on a national and international basis which includes the identities of communist leaders, and SA BOYLE has succeeded in this endeavor.

b6  
b7c

SA BOYLE together with SA [ ] and supervisory personnel shared their views and ideas and jointly acted on all of the problems previously enumerated in this operation during the past year. SA BOYLE's experience has been heavily relied upon in setting up a new cover for CG 5824-S\* and his wife for the recently completed Solo mission. In this regard SA BOYLE showed excellent initiative and judgment in obtaining documents utilized in the cover and made effective contacts with the source developed and used in connection with the cover operation. He is considered to have made major contributions through suggestions and through initiative in setting up this new cover.

SA BOYLE also with the assistance of SA [ ] and supervisory personnel and with Bureau approval compiled a useful and workable index of all the Solo operations which was most helpful and expedited preparations of materials submitted in connection with the recent Solo trip.

On a daily basis and as part of the work tools required to assist in this operation, SA BOYLE reviews clippings of major newspapers, including the "New York Times," and files all pertinent information on the international communist movement which might be construed either as information which CG 5824-S\* should be aware of or which is helpful from an information standpoint in preparing and submitting CG 5824-S\*'s information. As part of this program any items considered of pertinence are brought to the attention of CG 5824-S\* to preclude pitfalls, etc. The bulk of this clipping is done by SA BOYLE on his own time outside of working hours.

Following the return of CG 5824-S\* from his last Solo mission he was debriefed jointly by SA BOYLE and SA [redacted] with both agents sharing the responsibility for the receipt and processing and then submitting of the material. As a result of their combined joint efforts, the materials have been excellently handled in the shortest possible time with clarity, detail and accuracy, clearly indicating a mastery and understanding of the difficult subject matter involved.

b6  
b7c

Based upon the above facts, it is felt that the personnel enumerated above have all made major contributions to the over-all success and accomplishments of the operation of CG 5824-S\* during the pertinent period.

#### Operation of CG 5824-S\* During the Pertinent Period

##### A. Eleventh Solo Mission

By far the most important accomplishment of personnel responsible for the handling of CG 5824-S\* was in effecting the 11th Solo mission of the informant to the USSR, Czechoslovakia and Hungary during the period October 16 to December 17, 1962.

It will be recalled that the Cuban situation developed within days of the departure of the informant and before he crossed the "Iron Curtain." Despite the possibilities that were apparent as a result of Cuba and a possible war with the USSR, this informant because of indoctrination by these agents and convinced of security by the Bureau proceeded on his mission, with the full realization that if war developed he and his wife might not be able to return to the United States.

The informant almost immediately after crossing the Iron Curtain learned of the Levine expose and despite his apprehension of a possible exposure from these disclosures again decided to continue the mission.

Results of the accomplishments of this mission have been furnished in detail to the Bureau. However, a summary of the outstanding accomplishments are being set forth:

1. Informant succeeded in continuing to maintain his position as the official spokesman of the CPUSA to the CP-Soviet Union (CPSU) and to the Communist Parties of the world. He continued by virtue of this mission to have contact with heads of state of such countries as the USSR, Czechoslovakia and Hungary, as well as the leaders of the Communist Parties in some 54 countries of the world.

2. Through a successful Solo mission he was able to continue the Solo apparatus headed by himself and most ably assisted by NY 694-S\*.

3. Informant was a fraternal delegate of the CPUSA to the Czech Party Congress from December 4 to 8, 1962. This was the most important Congress held in the communist orbit during 1962 with no press coverage provided. It is believed the informant afforded the only coverage available to intelligence agencies of any of the countries of the West on this Congress, at which the China issue was the key issue. intelligence operation. In order to continue this operation the informant was briefed on the Soviets' knowledge of FBI investigative techniques. NY 694-S\* was particularly cited by the Soviets for his outstanding contributions to the success of this Soviet-CPUSA apparatus.

#### B. CPUSA

As the Bureau is aware, the continuance of the Solo mission is dependent upon the continued attention and coddling which CG 5824-S\* and NY 694-S\* must do for and in behalf of GUS HALL. HALL himself assigns CG 5824-S\* to each Solo mission. During the pertinent period the agent personnel of this office have continually been mindful of the above fact and have indoctrinated the informant that the focal point for the continuance of the over-all operation must be directed to HALL. The informant is mindful of this need and has gone out of his way to pay attention not only to the official needs of HALL for the operation of the CPUSA but to HALL's personal needs, both from a monetary and a personal standpoint. This is particularly distasteful to the informant because HALL is unpredictable and arrogant and unmannerly in his contacts with people including the informant's wife.

Evidence of the fact that agent personnel have succeeded in retaining the informant in his high position is exemplified by the following positions which the informant currently operates in the communist movement at a national and international level. They are:

1. Ex-officio member, National Board, CPUSA.
2. Ex-officio member, National Executive Board, CPUSA.
3. Covert member of National Committee, CPUSA.

7. Member of State Board, CP of Illinois.

BOYLE; supervisory personnel and stenographic personnel. It is on this basis that these recommendations are being made.

With regard to Supervisor FREYMAN, the Bureau is aware that CG 5824-S\* was developed by him, handled by him as the contacting agent, and the operation itself has been supervised by him since he assumed administrative responsibilities in approximately 1954. Through the 11 years of this operation he has developed an extremely close personal and official relationship with this informant through constant personal and telephonic contact. I have personally observed the handling of this informant by Supervisor FREYMAN and note that the informant has total trust in this agent. Whenever difficult problems occur, he relies on this supervisor for guidance and help. There is no question in my mind that the results of this operation are directly attributable to this supervisor. He has personally followed each facet of the entire operation from the beginning until the present time. Even though he has an extremely large volume of complicated and difficult work under his supervision, there is no detail too small in this operation to warrant his personal attention.

Recommendation for Incentive Award for the agents hereinafter listed is based upon their outstanding performance and the overcoming of unusual difficulties in connection with the preparation for and the conducting of the SACB Hearings held in Chicago in the case of CLAUDE MACK LIGHTFOOT beginning on January 23, 1963, and the case of [ ] which was held in Washington, D. C. on January 29, 1963. Each of the agents and supervisory personnel hereinafter listed contributed individually to the outstanding success of these hearings and to the impressions which representatives of the Department of Justice expressed at the termination of the LIGHTFOOT hearing. At that time [ ] of the Department, who was in charge of the Government's presentation of the LIGHTFOOT case, stated that he considered the LIGHTFOOT hearing as one of the best hearings over all which the Government has conducted. He stated that the evidence entered into the record, the demeanor of the witnesses utilized and the service of the FBI, Chicago, had been excellent in every respect.

Concerning the witnesses offered by the Chicago Division, the persons of [ ] and [ ] [ ] he expressed his thanks and he characterized [ ] direct testimony as some of the best testimony that he has been able to get into the record in these Internal Security Act of 1950 cases. With regard to both of these witnesses, he expressed complete satisfaction and indicated that the Department expected to utilize their service in connection with other similar hearings and particularly the [ ] and [ ] SACB cases.

b6  
b7c

The agents directly responsible for the overall success of these hearings which involved months and months of preparation and investigation are the following:

SA [ ]  
SA [ ]  
SA [ ]  
SA JOHN D. RIORDAN  
Supervisor JULIAN R. WALTERS  
Supervisor CARL N. FREYMAN

SA [ ]

SA [ ] has been responsible for the past several years for the investigation and over-all handling of the CLAUDE MACK LIGHTFOOT case. LIGHTFOOT is and was a key national officer of the Communist Party (CP) as well as being the Head of the National Negro Commission and of the Illinois District of the CP. Many difficulties were encountered in this investigation in proving title and position in view of the extreme security measures adopted by the CP of Illinois in connection with its Organizational breakdown following the upholding of the Internal Security Act of 1950. This agent was responsible for numerous interviews with reporters, TV and radio personnel, who interviewed LIGHTFOOT from time to time and used great tact and diplomacy in securing positive evidentiary information, some of which was produced in connection with the LIGHTFOOT hearing and was considered of great value.

b6  
b7C

In addition to his over-all responsibilities in the LIGHTFOOT case, SA [ ] was approved by the Bureau to sit as the representative of the Bureau with Departmental Attorneys during the hearings of both LIGHTFOOT and [ ]. In this regard SA [ ] expertly handled his duties which included the protection of all interests of the Bureau and took copious notes which were immediately reduced to lengthy and detailed teletype summaries and were followed by even more lengthy and detailed airtels recording every facet and detail of the hearing itself. These reports to the Bureau reflected an excellent knowledge of legal proceedings and techniques and it is felt that much worthwhile value can be obtained from these lengthy recordings for future study by the Bureau and by the field so that our witnesses in these cases in the future can be even more valuable.

SA [ ] relations with Departmental Attorneys were excellent and the attorneys specifically

commented on numerous occasions concerning the high caliber of assistance they were receiving from the Bureau in the person of SA [redacted].

Agent [redacted], in addition, was delegated by the Bureau for special assignment to Washington, D. C. in connection with the [redacted] SACB Hearing recently completed and there also performed outstandingly. He will undoubtedly be scheduled to sit as the representative of the Bureau at the hearings in the future for [redacted] and [redacted].

b6  
b7c

This agent in connection with the over-all prosecutive assignments which he has had in the Chicago Office in connection with these cases has willingly and voluntarily given all necessary time to the successful preparation for the hearings and has correspondingly made personal sacrifices by giving this time. Because of his know-how in these cases, he has been able to assist other agents in performing their necessary duties and has been extremely valuable in this regard.

b6  
b7C

SA [REDACTED]

SA [REDACTED] had the responsibility for the overall coordination of the preparation of materials and witnesses for the LIGHTFOOT and [REDACTED] hearings. It was his duty to view all correspondence, both incoming and outgoing, and to appropriately follow-up on all of the necessary details that go into preparing witnesses and witness materials for the hearings themselves. He was individually responsible to see that all informant reports were appropriately marked as well as receipts, copies of reports, etc., were prepared in good order and appropriately boxed for the individual testifying. It was his duty to follow-up on every outstanding lead to see that they were covered in a timely fashion and in proper form. He maintained a chart reflecting the presence or absence of materials, the arrival dates of witnesses, the location of witnesses, the agents assigned to handle witnesses, and he saw to it that all witnesses were appropriately handled by the responsible agents so that they would be in a proper frame of mind so as to afford the Government with their best possible testimony. As a result of this careful coordination by this agent, Departmental Attorneys indicated that all of the witnesses were in the proper frame of mind and attributed it to the careful handling of these witnesses by the Chicago Office and the agents assigned thereto.

In connection with his responsibilities, SA [REDACTED] was required to work a considerable amount of overtime and willingly gave all necessary time and incurred certain personal sacrifices. He demonstrated excellent supervisory responsibilities in handling a major security case.

b6  
b7C

SA [ ]

SA [ ] has been assigned the handling of Former [ ] a key witness in the LIGHTFOOT case, during the period when [ ] was under consideration for exposure and utilization as a witness. It was only through the careful guidance and handling of this former informant that the informant was brought to the proper psychological frame of mind whereby he was willing to appear as a witness in the LIGHTFOOT case. It is also through the careful handling and tactful guiding of this informant, that [ ] continues to be in an excellent frame of mind to appear as a witness in the proposed future SACB Hearings on [ ] and [ ].

b6  
b7C  
b7D

The job of conditioning this witness to the proper psychological frame of mind required many, many, long hours of discussion and counseling on the part of this agent, most of which were done outside of regular working hours and under unfavorable discussion conditions including inclement weather, meeting the informant at odd hours, etc., and at much personal sacrifice of the agent. As a result his overtime has been consistently high.

In addition, and all during this time, this agent continued to maintain his regular high case load.

The matter of the photostating and preparing recommended excisions for [ ] reports involved a long tedious, painstaking process which was the direct responsibility of this agent. In this regard he performed outstandingly well in his meticulous reviews in order to protect the interests of the Bureau. In addition, he coordinated the photostating and review for excision of the reports of Former [ ].

b6  
b7C  
b7D

During the course of the LIGHTFOOT hearing SA [ ] remained constantly with the witness keeping him

in an outstanding frame of mind to the point where the informant was completely willing and anxious to testify to aid the Government.

SA [ ] additionally greatly assisted the Departmental Attorneys in briefing them concerning the informant's background and mental attitude and appropriately made suggestions for the most efficient handling of this witness by Departmental Attorneys. His keen insight and knowledge of the informant's likes and dislikes was the result of painstaking study of the informant's personality and greatly assisted in the success he had in producing a most valuable witness.

b6  
b7C

As indicated previously, Departmental Attorney [ ] characterized [ ] direct testimony as some of the best testimony he has been able to get into the record in any of the SACB Hearings which the Department has conducted to date.

**SA JOHN D. RIORDAN**

SA RIORDAN has been assigned to the handling of Former [redacted] for the past several years. This agent in making her a most valuable witness in the LIGHTFOOT case, had testimony by this witness as an objective during the entire period in which he handled her. He succeeded in placing her in a position to attend the CP, USA, National Convention in 1959, in placing her on the Illinois District Committee, and in placing her on the Illinois District Board until this Board was dissolved after the Supreme Court decision in 1961.

b6  
b7C

As a result of his outstanding guidance, this witness was in a position to testify to extremely valuable information concerning the position of LIGHTFOOT in the CP, both nationally and locally. He also guided her so that this informant became the [redacted]

[redacted] By so doing he placed [redacted] in a position of having regular and intimate contact with LIGHTFOOT and as a result thereof, she could furnish additional testimony showing position and power of LIGHTFOOT in the Communist Movement.

SA RIORDAN as indicated previously from the date he was assigned to this informant had the objective of conditioning this witness to some day testify for the Government. He completely dominated and controlled her thinking in this regard to the point where when the time came for her exposure, she willingly and loyally agreed to make her testimony available to the Government. This was not an easy matter and was the result of many longer hours and days of discussion by the agent with this potential witness. It is recognized that in order to condition these people, particularly people of the Negro race, the agent must overcome the element of fear and ostracism in the community. Agent RIORDAN successfully overcame all these obstacles in connection with handling and conditioning of this witness.

During the period of the trial and prior thereto in connection with interviews by Departmental Attorneys, SA RIORDAN was also able to supply Departmental Attorneys with personal experiences with this informant which assisted them in interviewing and preparing her for testimony in the most productive manner. He continued to keep her in an outstanding frame of mind during the trial period by making appropriate arrangements for her safety and by remaining with her at all times during the pertinent period. In so doing, SA RIORDAN expended a large amount of overtime and incurred personal sacrifices. Since the hearing, he has continued to completely control this witness to the point where she continues to be in an excellent frame of mind and willing to testify in future SACB Hearings.

b6  
b7D

[redacted] of the Department and Attorney [redacted] both concurred in their views that [redacted] was an excellent witness in the LIGHTFOOT case and this is directly attributable to the years of work that SA RIORDAN has given in conditioning this informant.

**Supervisor JULIAN R. WALTERS**

Supervisor JULIAN WALTERS initially developed [ ] in 1953, when this informant was out of the CP Movement. Since 1953 this agent and now supervisor has been intimately connected with the over-all handling, first as the contacting agent and later as the supervisor responsible for the handling of this informant, to the point where [ ] attained such outstanding positions in the CP as would make him a delegate to the National Convention of the CP in 1959, a member of the State Committee and District Board of the CP of Illinois, a Club Chairman of a steel club in the CP of Illinois and as a member of the National Steel Commission of the CP, USA. For almost ten years Supervisor WALTERS has been directly involved in the guidance and responsibilities incident to the handling of this most valuable Government witness. While SA [ ] was directly responsible for the day to day handling of this witness, it was Supervisor WALTERS who, because of his close personal friendship with [ ] which continued throughout these years, to whom [ ] looked for over-all decisions and guidance. This relationship continued to exist up to and through the LIGHTFOOT hearings and immediately following these hearings this supervisor personally arranged to see [ ] with the Special Agent in Charge in a successful effort to continue this strong relationship between [ ] and the Bureau.

b6  
b7c

With regard to [ ] Supervisor WALTERS has had the direct responsibility for the supervision and over-all guidance of this informant's activities for the past several years. In this connection he again performed outstandingly in rendering advice and counsel based on his lengthy experience in informant handling to the point where, as indicated previously, [ ] was conditioned to render an outstanding performance as a witness.

During the critical period of securing her consent to testify Supervisor WALTERS met with [ ] and the

contacting agent to assist in the conditioning of this witness. Since that time he has been in frequent telephone contact with this informant and she continues to have an excellent attitude toward testifying and toward the Bureau.

Supervisor WALTERS was directly responsible for the supervision and preparation of all of the informant reports of both of the above witnesses which involved the organizing of an entire squad of agents to photostat and handle thousands of serials. He was responsible for the over-all coordination and preparation of excision recommendations for both witnesses and all of this work required constant attention to detail, judgment, and guidance to the entire squad of agents who assisted in this magnanimous project involving weeks of work. In this regard Supervisor WALTERS gave heavily in voluntary overtime in order that Bureau deadlines would be met.

Supervisor CARL N. FREYMAN

Supervisor CARL FREYMAN has been in charge of over-all responsibilities for prosecutions of Smith Act and Internal Security Act cases in the Chicago Office for many years. With regard to the SACB citations he was responsible for the preparation and supervision of investigations of all Internal Security Act of 1950 individuals including CLAUDE LIGHTFOOT, [redacted]

[redacted] and [redacted] together with approximately six pending Communist front organizations. With regard to the four pending SACB cases involving LIGHTFOOT, [redacted] and [redacted] he had the over-all responsibility for running the investigations, for suggesting avenues of investigation, for handling responsibilities on the coverage of public meetings by CP leaders, for the assignment of personnel for delicate interviews with members of the press, radio and TV.

b6  
b7C

In connection with the LIGHTFOOT hearing, he had the over-all responsibility for organizing and assigning all personnel, including those who appeared at the counsel table, agents to handle exhibits, to handle liaison with Departmental Attorneys, to handle the Departmental Attorneys themselves, and to see that detailed teletypes and airtel summaries were promptly submitted.

It was also the supervisor's responsibility together with Supervisor WALTERS to make decisions and recommendations with regard to potential witnesses to these cases. As indicated from the remarks of [redacted] of the Department, their judgments in this regard were sound. In connection with his over-all responsibilities, this supervisor over a period of years has given unselfishly much overtime including weekend duties so that the needs of the Bureau will be met.

b6  
b7C

As reflected previously in connection with the LIGHTFOOT hearing, [redacted] of the Department

advised that he considered the LIGHTFOOT hearing one of the best hearings over all the Government has conducted. This included evidence entered in the record, demeanor of witnesses utilized, and the services by the FBI of the Chicago Office. Much of the over-all success of this SACB Hearing is attributable to the excellent over-all coordination in this matter by Supervisor FREYMAN. The excellent handling of this highly complicated matter by Supervisor FREYMAN is attributable to his devotion to duty, extreme desire to accomplish the desired objective and his outstanding over-all knowledge in the security field. The accomplishing of this over-all objective in regards to the LIGHTFOOT and [ ] hearings is directly traceable to the personal sacrifices of this supervisor through long hours, sacrificed away from his family.

b6  
b7C

I feel that the performances of these agents and supervisors were truly outstanding in every respect and were carried out in the highest traditions of the Bureau. I further feel that their performances have truly demonstrated their dedication to the Bureau's work and to the security of the country.

4. ANY LIMITATIONS ON AVAILABILITY: ANY PHYSICAL LIMITATIONS AFFECTING PERFORMANCE

There are no physical limitations affecting Mr. FREYMAN's performance. At the present time he is not immediately available for general assignment. As the Bureau is aware, he has continued to be the sole support of his mother, details of which have been furnished to the Bureau. He is readily available for special assignment and when the above situation is alleviated, he will, of course, be available for assignment wherever the needs of the service require.

5. INCENTIVE AWARDS AND COMMENDATIONS  
(SUMMARY, NOT VERBATIM)

By letter dated 1/31/63, the Director commended Mr. FREYMAN and afforded him a meritorious award for the exceptionally fine manner in which he continued to supervise the handling of a confidential source of information of considerable value to the Bureau in the security field. The Director commented that the success of this operation can be ascribed in a large degree to the unusually skillful and resourceful fashion in which Mr. FREYMAN handles assignments. By letter dated 2/12/63, Mr. J. WALTER YEAGLEY, Assistant Attorney General, commended Mr. FREYMAN and others for their outstanding assistance in the Communist Party membership petition cases before the Subversive Activities Control Board. By letter dated 2/28/63, the Director commended Mr. FREYMAN for the splendid manner in which he carried out his over-all supervisory responsibilities in connection with the preparation for prosecution of Smith Act and Internal Security Act cases in the Chicago Division. The Director commented that Mr. FREYMAN certainly displayed a high degree of ingenuity, thoroughness, and competence.

6. TYPES OF CASES OR WORK HANDLED AND APPRAISAL  
OF OVER-ALL PERFORMANCE

During this entire rating period, Mr. FREYMAN has been the supervisor of Security Squad #2 which squad handles basic revolutionary groups, front groups, top functionaries, key figures, and security informants. Mr. FREYMAN is dedicated to the Bureau and to doing everything which he possibly can to combat the communist menace. His tremendous knowledge of Communist Party activity and related matters is extremely beneficial to this office. Mr. FREYMAN is extremely ingenious and is constantly thinking of new ways and means which can be utilized in the Bureau's counterintelligence program. Mr. FREYMAN supervises the Solo operation which is one of the most delicate and complicated investigative matters being handled in the entire Bureau. He has done an outstanding job in regard to all phases of this program. Mr. FREYMAN has handled his over-all assignments in an excellent manner and he is so rated.

Mr. FREYMAN's excellent personal appearance and his outstanding personality make him highly effective in handling personnel and in his contacts outside the office. He is mature and possesses outstanding judgment. He handles his personnel in a firm but fair manner and is completely respected by them.

As Supervisor of Squad S-2, he supervises the basic revolutionary groups, front groups, top functionaries, key figures, and security informants. He has given outstanding personal direction to one of the Bureau's most important informants and counterespionage cases.

He is intensely interested in his work and constantly demonstrates outstanding resourcefulness, attitude, and industry. He is considered well above average in a supervisory capacity. He is thoroughly experienced along administrative lines, and I feel he is fully qualified at this time to assume additional administrative responsibility and would rate him as excellent in this regard. However, at the present time he is not immediately available for immediate assignment due to a personal problem involving the support of his mother. When this situation is alleviated, he will, of course, become immediately available.

INSPECTOR [REDACTED]

[REDACTED] bmc 6/18/63)

The Inspector agrees with the observations of the SAC and the adjective rating given Freyman by him.

Freyman presents an excellent physical appearance. He is a large individual within desirable weight range and neatly attired and gives the general impression of that of a successful businessman. Freyman is a supervisor of a security squad and is regarded as the senior supervisor in that area of the Bureau's work in Chicago and heavily counted on by the administrators in all security matters within that division. He has received numerous commendations from the Director in the past for his outstanding performance in connection with security matters.

Freyman is enthusiastically interested in all phases of the Bureau's work and particularly in the security field. He is a knowledgeable experienced supervisor and has the respect of his associates. During the three-month period prior to the inspection he averaged 3' 27" per month overtime which is substantially above the squad and office average for this period. He explained that this was necessary due to the nature of his assignments and that he would constantly watch his overtime in an attempt to reduce it commensurate with the responsibilities of his desk.

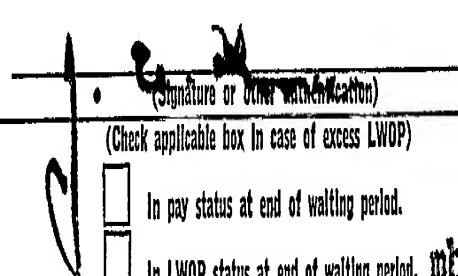

Inspector agrees with the SAC in his statement that Freyman is fully qualified to assume additional administrative responsibility. However, he is currently unavailable for special or general assignment due to a heart condition of his mother which situation the Bureau is fully cognizant of. He assured the Inspector that when this situation is alleviated, he will immediately become available for special or general assignment consistent with the needs of the Bureau.

SA HERBERT K. STALLINGS  
RECOMMENDATION FOR QUALITY  
SALARY INCREASE;  
SA CARL N. FREYMAN  
RECOMMENDATION FOR INCENTIVE AWARD

There is attached herewith a recommendation for quality salary increase for SA HERBERT K. STALLINGS together with recommendation for incentive award for SA CARL N. FREYMAN.

This recommendation is based upon outstanding results in the Chicago security counterintelligence program through the period March 1, 1963, to the present time. For the assistance of the Bureau in evaluating the quality and content of the original documents prepared by this office in connection with this program, I am attaching herewith copies of "Ad Hoc Bulletins" two through six together with a statement issued by GIL GREEN, Communist Party, USA (CPUSA) national functionary, following the issuance of the most recent bulletin.

It is believed that the justification which accompanies this recommendation reflects outstanding ability, original thinking, and outstanding enthusiasm by these agents in furtherance of this important Bureau program and fully substantiates recommendation for these awards.

SA STALLINGS has spearheaded this program since early 1962. He is currently a Grade 13 agent of high intelligence and tremendous imagination. His writing ability as is demonstrated in the documents attached herewith is outstanding. His knowledge of Marxism-Leninism is broad and outstanding. He has a broad knowledge of the thinking and operations of most of the functionaries in the midwest area in the CP, and has utilized this knowledge extensively in preparing his documents.

(8) (SEE ADDENDUM PAGE 3)

While giving full credit for the success of this program to SA STALLINGS, I feel that I must at this time recognize the outstanding supervision of this program rendered by SA CARL N. FREYMAN who has supervised the counterintelligence program of the Chicago Office since 1956. He has displayed sound conviction on the value of this program and has given it constant attention as well as daily guidance to the counterintelligence agent. He has assigned ideas to this agent for development and has assisted in the development of the ideas themselves, out of which the finished product developed. Of no small importance is the fact that this supervisor has carefully guided this program so that the Bureau's interests at all times would be protected and the Bureau's identity with the program would not be known, thus preventing potential embarrassment to the Bureau.

I feel that Supervisor FREYMAN's intimate knowledge of the communist movement, particularly the Chinese situation, and his direction of this program to develop and expand the "Ad Hoc Bulletins" are particularly important.

Based upon the performance of SA STALLINGS in connection with this program and also the responsible supervisor, there is no question in my mind that the high level of their performances can be expected to continue.

Inasmuch as SA STALLINGS continues to perform excellently, there is no change in his over-all performance rating and thus it is felt that the need for a special performance rating is obviated.

Accordingly, it is recommended that the Bureau give consideration to appropriate awards to these agents.

ADDENDUM - DOMESTIC INTELLIGENCE DIVISION, 1/28/64, DR:eeb

SA Herbert K. Stallings

SA Stallings is responsible for the implementation of our Communist Party, USA (CPUSA), Counterintelligence Program (Cointelpro) in the Chicago Office (Bufile 100-3-104-9). This Program has for its purpose the disruption and neutralization of the CPUSA both as an organization and as to its individual leaders and members. New ideas and techniques are the lifeblood of the Program. The inherent sensitive nature of the individual operations connected with this Program necessitates an exceptional degree of sustained good judgment and discretion on the part of the handling Agent.

Prerequisites for the successful operation of this Program by the field Agent are imagination, ingenuity, initiative, and extensive knowledge of the Communist Party (CP) on a local, national, and international scale. The case Agent must know and understand the varied motivations and reactions of individual Party leaders and members to successfully handle this vital Program.

SA Stallings has demonstrated over a sustained period that he possesses the prerequisites required by this Program and the success of the Chicago Office in effecting the Program is directly attributable to his efforts and interests.

A specific example of the ability of SA Stallings is the fictitious counterintelligence "Ad Hoc Bulletin," ostensibly published by the also fictitious Ad Hoc Committee. Six separate editions of this Bulletin have received wide circulation in the Chicago area, causing consternation and disruption within Party ranks, since 1963. The Bulletin is written with a sophisticated pro-Chinese, left, sectarian theme and is in the language of a dedicated but rebellious comrade who has an obvious knowledge of both inconsistencies in the CP line and the gossip in Party ranks. As a direct result of the circulation of the Bulletin, three members have been expelled from the CP, a group of members have ceased activity, and much of the efforts of the Party in the Chicago area have been bogged down because of the resulting controversy. National Party leaders have expressed concern regarding the Bulletin and one local leader found it necessary to publicize in a letter to the membership a defense of the allegations concerning him that appeared in the Bulletin.

The "Ad Hoc Bulletin" and the Ad Hoc Committee are the products of the imagination of SA Stallings. Not only is the idea his, but the actual composition of the Bulletin was skillfully accomplished by him.

Since 3/1/63, SA Stallings has submitted numerous additional suggestions for action under the Cointelpro and many of these have had outstanding results over a sustained period. SA Stallings' efforts have contributed in a large measure to the over-all effectiveness of the Bureau's Cointelpro.

SA Carl N. Freyman

SA Freyman, who is the Security Supervisor responsible for the supervision of the Cointelpro in the Chicago Office, has outstanding over-all knowledge of the CP and undoubtedly his counsel and suggestions have been of assistance to the implementation of the Cointelpro in the Chicago Office. There is no doubt that he has referred items to SA Stallings for development under the Program and that he has carefully supervised this delicate operation to protect the Bureau's interests.

RECOMMENDATIONS:

1. We concur with the recommendation of the SAC, Chicago, that the performance of SA Herbert K. Stallings in connection with the implementation of the Cointelpro in Chicago has been most meritorious and productive. We are not recommending SA Stallings for a quality salary increase as this type recommendation must be submitted in connection with annual performance ratings. We strongly recommend an incentive award in an amount to be determined by the Administrative Division be furnished to SA Stallings.

2. Although the performance of Supervisor Carl N. Freyman in connection with the supervision of the Cointelpro in the Chicago Office has been noteworthy, his efforts in this regard are in conjunction with his over-all supervisory duties and responsibilities. We, therefore, do not recommend he be awarded an incentive award or commended in connection with his efforts in this regard.

**JUSTIFICATION FOR INCENTIVE AWARD  
FOR SAs [REDACTED] WALTER  
A. BOYLE and CARL N. FREYMAN**

b6  
b7C

**A. BACKGROUND**

SA [REDACTED] has been the primary contacting agent for CG 5824-S\* since January, 1961, and prior thereto was the alternate contacting agent since July, 1960.

SA WALTER A. BOYLE has been assigned as the alternate contacting agent for CG 5824-S\* and the Solo operation since March, 1962. While technically the alternate contacting agent, SA BOYLE is engaged almost totally on a day-to-day basis in this operation in view of its complexity, in the volume of information furnished, the fact that it involves cover companies, the operation of the informant's wife and the operation of the informant's brother as head of the cover company. All of the detailed work involved in this matter is handled by SA BOYLE on a day-to-day basis, and in addition SA BOYLE regularly with the contacting agent meets the informant during interview periods.

Supervisor CARL N. FREYMAN has had the over-all supervisory responsibility for this operation during the pertinent period and regularly meets with contact agents and the informants on matters relating to policy, planning, etc. He has had contact with this informant since 1952 initially as the contacting agent and since the mid-1950s when he assumed supervisory responsibility.

The basis for this recommendation of incentive awards is the successful completion of Solo mission #14 to the USSR and Prague, Czechoslovakia, by CG 5824-S\*, said successful mission having been the result of careful handling and preparation on the part of responsible agents in the continued handling of this informant, his wife and the informant's brother during the period September 18 through December 31, 1963. Again this operation has been consummated in outstanding results for which these agents are directly responsible and concerning which unusual difficulties were surmounted.

**B. PROBLEMS INVOLVED AND MET BY AGENTS**

In connection with this mission, the informant was given one week by GUS HALL, General Secretary, Communist Party (CP), USA, to depart from this country on the 14th Solo mission. In effect, because HALL was then in Chicago, the informant's preparation time was reduced to two days. This involved the making of many important decisions relative to mode of travel, whether or not the informant

should take his wife, preparing necessary documentary papers, arranging for travel plans, etc. Contacting agents spent many hours above and beyond the normal work day in making these short notice preparations.

The contacting agents, once a decision was made not to take the informant's wife with the informant, had the problem of assisting in conditioning informant's wife to permit her husband, who was again extremely sick, to make the trip alone. This required several meetings and it was only because the agents were able to instill trust in the security of the operation in the mind of the informant's wife that she consented to let him go without her.

All during the period of the informant's absence from Chicago which was in excess of 30 days, there was no communication from the informant indicating any information concerning security or his physical welfare. The informant's wife was extremely concerned during this period and the agents had frequent contact with her in order to mitigate her fears and to continue to instill trust relative to the security of the operation in her mind during this period. This was not a little problem because the informant's wife is extremely sensitive to his security and well being, having been married to him approximately 1½ years and having previously been widowed by an industrial accident to her first husband. It must be noted that she is well up in years and extremely fond of CG 5824-S\* and interested in his welfare.

Upon informant's return to this country following this successful mission, the informant for security reasons found it necessary to land in Los Angeles, California. Both agents were designated to debrief him at the earliest possible time at his point of arrival. They spent long hours debriefing him and on one occasion both agents debriefed him continuously for a period in excess of ten hours. All of the debriefing was concluded within a period of ten days and all of the communications had been submitted to the Bureau by December 18, 1963. This debriefing was done under most trying conditions because of the serious physical condition of CG 5824-S\* resulting from his 30 day confinement in the USSR during which he again encountered a bleeding condition which to the present time has not been completely retarded. As a result thereof, the information furnished by the source was given in a most disjointed and disconnected fashion requiring extensive interview and organizing in order that understandable, intelligible documents could be prepared. This required skills and background which are unique in the knowledge of these two contacting agents.

**C. OUTSTANDING RESULTS OBTAINED  
IN 14TH SOLO MISSION**

The 14th Solo mission was taken at the urgent behest of GUS HALL on extremely short notice for the purpose of: 1) determining the present status of the Chinese-Soviet rift, and 2) negotiating for the 1964 CPUSA budget.

The informant tried without success to postpone this mission to a later time, but HALL was unwilling to accept these suggestions. It was the informant's hope that by attempting to forego this trip, he might be in a position to report on an international conference of Communist Parties of the world on which there was unverified information that it might be held in January, 1964.

Insofar as the trip itself was concerned the most important result that the Bureau obtained was in the continued solidifying of the informant's position as [REDACTED]

**D. OUTSTANDING RESULTS ACCOMPLISHED IN  
THE HANDLING OF CG 5824-S AT THE  
NATIONAL LEVEL OF THE CPUSA**

During the pertinent period through the continuing efforts of these agents, they have been able to maintain CG 5824-S\*'s position at the highest policy-making levels in the CPUSA and he is the confidante and political advisor of GUS HALL, thus enabling the Bureau to have the most current and most intimate knowledge

of the Party's present and future intentions on a day-to-day basis. The positions at which he currently operates are as follows:

1. Ex-officio member, National Board, CPUSA.
2. Ex-officio member, National Executive Committee, CPUSA.
3. Covert member, National Committee, CPUSA.
4. Head of National Review, Audit and Appeals Commission, CPUSA.
5. Secretary of Foreign Affairs Committee, CPUSA.
6. Ex-officio member-at-large of Secretariat, Midwest Region, CPUSA.
7. Member of State Board, CP of Illinois.
8. Ex-officio member of Staff, CP of Illinois.
9. Member of Professional Section, CP of Illinois.
10. Official CPUSA representative to CPSU, CP of Canada, CP of Czechoslovakia, CP of Mexico, and all other Communist Parties throughout the world with which CPUSA maintains relations.

The Bureau, in this connection, will also note that the informant was present for the entire National Executive Committee meeting held in New York in mid-December, 1963, and during this period fully briefed HALL on the results of his current Solo trip. In summary, it can be stated that these agents through careful guidance of this informant have continued to furnish the Bureau and the government with the most outstanding information available in the communist national and international field. Their devotion to duty is exemplified by the large amount of overtime which they regularly give in connection with this operation. This is an operation that requires handling on a 24 hour, seven day a week basis and each of these agents is available on a moment's notice for either service in this division or wherever their services are needed.

In this summary, the continued efforts of these agents in the successful handling of the informant's wife and of the informant's brother in the cover company must be brought out. Both of these individuals are new in the operation. The contacting agents have spent much time in indoctrinating them in the importance of the over-all operation and in the need for them to play key roles in this regard.

RECOMMENDATION FOR QUALITY SALARY  
INCREASE FOR SA HERBERT K. STALLINGS;  
RECOMMENDATION FOR INCENTIVE AWARD  
FOR SA CARL N. FREYMAN

---

Recommendation for quality salary increase for SA HERBERT K. STALLINGS is based on sustained exceptional performance by this agent involving the overcoming of unusual difficulties in connection with the Chicago security counterintelligence program from March 1, 1963, to the present date. This exceptional performance has accomplished outstanding results in connection with disrupting the functions of the Communist Party, USA (CPUSA) Illinois District, which results have placed the Chicago Office in the forefront of the Bureau's security counterintelligence program.

Recommendation for incentive award for SA CARL N. FREYMAN is based upon his excellent supervision and direction of this program since November, 1962, at the time the "Ad Hoc Bulletin" idea was originated by this office to the present time. In his supervision and direction of this program, this agent has used his over-all knowledge of the CPUSA and its program and leadership, his knowledge of personalities of the CPUSA leaders, his knowledge of the Sino-Soviet crisis and his experience as a supervisor of this program since its inception to guide and direct the counterintelligence agent in a well-rounded and versatile program, the results of which will hereinafter be set forth.

BACKGROUND

One of the most important programs of the Bureau in the security field at the present time is the relatively new counterintelligence program which is designed to counteract the propaganda of the communists and in a positive sense to disrupt and fragmentize the CPUSA, its leadership and its fronts, to such an extent that the program of the Party and its objectives are nullified.

In order to have a successful counterintelligence program, it is necessary to select a man of outstanding qualifications and background relative to knowledge of the communist movement, knowledge of political philosophies,

knowledge of history, tied in with outstanding writing ability. SA STALLINGS has all of these qualifications together with drive, desire and imagination, the latter of which is a most important factor. He has intimate knowledge of individual personalities in the communist movement and a psychological understanding of the minds of communists generally and the ability to create original materials based upon extensive research. This agent has handled this program in the Chicago Office in an outstanding fashion since the early part of 1962, and the results during the pertinent period place the Chicago Office in a category second to none in the communist counterintelligence field.

SA STALLINGS has a most fertile mind and his accomplishments since March of 1963 have resulted in major contributions by the Chicago Office to the Bureau's over-all counterintelligence program. Concretely some, but by no means all, of his accomplishments are outlined hereinafter.

SA FREYMAN has been the supervisor of the Chicago security counterintelligence program since its inception in 1956. As supervisor he has carefully selected the most responsible and potentially capable security agents of this office for responsibility on this program. He has used his extensive experience in the counterintelligence field to guide and train these agents and has carefully screened and supervised ideas and programs instituted in this office. He has carefully protected the interests of the Bureau in all of these operations, being careful that none of the projects themselves could be traced to the Bureau and has thus precluded embarrassment to the Bureau and has capably assisted in the effective continuance of this program. He has made numerous suggestions for over-all programs which have been developed by this agent and has particularly assisted in developing the so-called "left line" program of disruption in this office through his intimate knowledge of the Sino-Soviet crisis. It is my strong conviction that without the close guidance and supervision of this supervisor of this program, the results obtained by the Chicago Office would have been greatly lessened.

#### The "Ad Hoc Bulletin" Program

It will be recalled that in November, 1962, this agent created from his own imagination based upon developments within the communist movement in the Chicago area a non-existent Ad Hoc Committee (AHC) for a Scientific Socialist Line as the

publishers of an anonymously circulated "Ad Hoc Bulletin." This bulletin, in direct line with the Bureau's over-all objective, is designed to disrupt and fragmentize the communist movement in the Chicago area, and nationally if possible. It has taken a pro-Chinese, Marxist-Leninist line, and the general over-all purpose of the bulletin is to create in the eyes of the CP the existence of a factional grouping within the Illinois District and nationally if possible which adheres to the Chinese interpretation of Marxism-Leninism, as against the pro-Soviet line of the CPUSA and the Illinois District.

During the pertinent period this agent successfully continued this fictitious committee through the publication of five separate original documents, each with a specific purpose in mind, but all with the general over-all purpose of causing factionalism within the CPUSA. An extensive amount of creative research and writing is involved in these publications. An extensive knowledge of Marxism-Leninism is a necessity. Intimate knowledge of the personalities and thinking in the communist movement is also a basic requirement in order to prepare a document which will pass the scrutiny of the communist leadership without divulging the identity of the Bureau as the source of these publications.

Through the careful preparation of these and other documents by this agent, there has been no tie by the Party of this counterintelligence program to the Bureau and the potentialities for the continuance of this fictitious committee in the future remain unlimited.

In order to clearly portray the outstanding work of this agent, the following is set forth for the assistance of the Bureau and attachments for each original document are also included in this recommendation.

"Ad Hoc Bulletin"#2, March, 1963

"Ad Hoc Bulletin" #2 entitled "For a Marxist-Leninist Approach to the Kennedy Administration" was anonymously circulated to leadership and rank and file members of the CP in March, 1963.

The original idea for this publication was to prepare a publication which would portray the Soviet line on "peaceful coexistence" as revisionist and to instill in the minds of the CP members and leaders in this District the idea that the

Chinese line was based on sound Marxism-Leninism and that the present CPUSA leadership was deviating from this line. The CPUSA had adopted the Soviet line of peaceful coexistence with regard to the Kennedy Administration, and it was felt that the development of the revisionist charges against the Party could successfully be developed around this approach.

SA STALLINGS after extensive research prepared a three page document in which he charged the American Party was revisionist and "parroting Moscow's soft line approach to imperialism." It charged the Kennedy Administration with being a fascist type administration and the CP with condoning and working with this type of imperialist leadership. It called for the American Party to return to the principles and teaching of Marx and Lenin and to heed the lessons of history, to recapture the vanguard role, and to lead the masses in an uncompromising struggle against imperialism. It further called for the CP members to vigorously oppose the leadership policies of the CPUSA and to demand a return to a militant and uncompromising struggle against imperialism.

The results and ramifications of the publication of this particular bulletin are still being heard in the Party today. It came to the attention of the Party leadership in early March, 1963, when a leader received a copy of the bulletin and immediately displayed it to another leader. They were concerned with how widely this bulletin had been circulated and offered the opinion that it "was prepared from within the Party with assistance from without," meaning that the Party leadership believed that someone in the Party prepared the bulletin with the help of persons outside, perhaps members of the Socialist Workers Party (SWP) or other radical groups.

An immediate concern was registered with regard to the possible size of the pro-Chinese grouping in this area and the leadership centered its suspicion around [redacted] a member of the CP for some 40 years who was known for his pro-Foster views. It was noted by the leadership that the bulletin carried the [redacted] line intended to confuse Party members ideologically and the Party immediately concluded that it must attack this position.

b6  
b7c

At a meeting of the CP State Board in late March, 1963, [redacted] CP of Illinois, outlined methods to combat the line of the bulletin which included the distribution of 750 copies of an article by GUS

HALL which countered the line of the bulletin. He also called on the Board to take the "Ad Hoc Bulletin" to each club, to discuss its contents, and to call on each club to repudiate the line contained therein. He also asked the Board to take action against anyone who would circulate this line.

At the same meeting WEST recommended that [ ] be called in by the Board and expelled from the CP. He noted that some of [ ] followers may leave with him, but he did not expect a "mass exodus." He added that the Party can win them back anyway because "we have the correct line."

At the same meeting there followed a long discussion and it was obvious that all Board members connected [ ] with the AHC. Some Board members wanted to wait two months before taking action against [ ] so that they could utilize the two month period to "work on" [ ] followers and win them back to the Party line, after which [ ] would be expelled. One Board member indicated he was completely convinced that everything stated in the bulletin was not wrong. b6 b7c

WEST then proposed a three man committee be appointed to study the "Ad Hoc Bulletin" and to explore the ideological points contained therein. He proposed that in every club all members be called on to repudiate its contents and that the leadership work to win back to the Party line the followers of [ ] and that [ ] be expelled within three months. This plan was agreed on by the Board.

Apparently [ ] and political head of the Illinois Party, lost no time in his attempt to counter the line of the AHC. On April 1, 1963, an informant furnished this office with a copy of a three page document dated March 29, 1963, addressed to "All Members" and signed Communist Party of Illinois. This document which was obviously prepared after research by the Party attacked the Midwest Committee for Protection of Foreign Born (MCPFB) and the AHC and lumped the MCPFB with the SWP, the AHC and the Provisional Organizing Committee for a Marxist-Leninist Party. It called on all members to repudiate and denounce the line of the AHC. Because of the similarity of the line on the Kennedy Administration of the AHC and a MCPFB document issued in November, 1962, and written by JIM KELLER,

[ ] took this opportunity to link [ ] to the "Ad Hoc Bulletin." He compared the lines of the "Ad Hoc Bulletin" and the MCPFB document and thus the die was cast to expel [ ]

Concerning the MCPFB statement, it was reportedly written by [ ] and contained a veiled attack on the CP line on the question of the "fascist danger."

The informant advised that [ ] a member of the State Board, had given him ten copies of the Party document to be delivered to each member of the informant's club with the instruction that each Party member read the statement and that the contents be discussed at a later date. [ ] had about 50 copies of this document in his possession. The original "Ad Hoc Bulletin" was mailed to less than 40 Party members, but it appeared that [ ] through the Party mailing brought the conflict to the attention of the entire membership and was in effect aiding the Bureau in the circulation of the bulletin.

b6  
b7C

Subsequently, in April, 1963, the District Board ordered [ ] to appear for a hearing on April 29, 1963. At a Board meeting on April 30, 1963, CLAUDE LIGHTFOOT noted that [ ] did not appear for the hearing and a committee was formed to investigate the status of [ ] health and if necessary go to [ ] home to expel him. Subsequently, [ ] knowing that the expulsion was imminent, gave a Party member a sealed letter containing his resignation from the Party, and the Party subsequently formally expelled him.

In the meantime, the Party instructions that the "Ad Hoc Bulletin" be discussed in the clubs and that individual club members reaffirm the correct Marxist-Leninist line of the Party were meeting with unexpected results.

b6  
b7C

For example, it was learned through an informant that a left caucus grouping was meeting separately in the Railroad Club and that this grouping was in close touch with [ ]. The purpose of their meeting was to counteract the instructions of the Party and particularly the action of the Party with regard to the expulsion of [ ] and some other members.

b6  
b7C

In the Garfield Club, an informant reported that when this matter was brought up for discussion, members asked for time to study the CP statement before a vote would be taken. Through the use of another informant, who was Chairman of this Club and approved in the counterintelligence program, this informant was able to keep the matter undecided in the initial meeting and to wait and have a vote at a subsequent meeting. The Club subsequently rejected the Party statement with only two votes affirming the District Party line. [ ] a member of the club and a member of the District Board, was so shocked by this action that he went directly to a local bar and hurriedly drank three shots of bourbon and sat at the bar with his head in his hands in a complete state of dejection.

The Party leadership met with similar action in the Southeast Club, which was headed by [ ] who is also an officer in the MCPFB and a friend of [ ]. [ ] did not even bother to attempt to sell the club on the Party statement. [ ] announced at a Board meeting that this club would be disbanded, that [ ] would be expelled and that the other members would be placed in different clubs. [ ] subsequently took it upon herself to put the CP line as stated in the Party document to a vote and all club members present voted to reject the statement.

Likewise, the Party ran into difficulties in the Russian Club, of which [ ] was a member. This club rejected the statement by a vote of six to two while [ ] LIGHTFOOT and [ ] State Board members, were in attendance and had tried desperately to force this club to accept the Party position. The leadership, as a result, gave consideration to dissolving this club and isolating the six members who rejected the statement. [ ] commenting on the treatment he received in the Russian Club, on April 8, 1963, stated that the comrades were very adamant about their position which coincided with the position of the "Ad Hoc Bulletin" and could not be convinced of the error of their position. He said that if a vote had been taken with regard to his, LIGHTFOOT's, expulsion at this meeting, he, LIGHTFOOT, would probably have been expelled. He therefore said that the situation was serious and that the struggle must continue and be conducted in all Party clubs so that the correct line can be accomplished.

b6  
b7C

There were also repercussions in other clubs. For example, in the Social Workers Club, a professional group, when the Party statement was presented, one member of the club denounced KHRUSHCHEV for putting missiles in Cuba in the first place and for withdrawing them in the face of the United States blockade in the second place. This parroted the Chinese line of the "Ad Hoc Bulletin."

The results of this bulletin also had ramifications in the communist front organization MCPFB. [ ] stated at a meeting on April 22, 1963, that the organization would need new leadership, and it was doubtful if [ ] and [ ] would surrender their leadership in this organization to anyone in the Party. It was [ ] opinion that henceforth the CP leadership would have little if any control over this organization. [ ] predictions have been borne out, in that both [ ] and [ ] as of January, 1964, continue to remain in leadership in the MCPFB and the Party has little or no control over this former communist front organization.

b6  
b7C

During April, 1963, the left caucus in the Railroad Club continued to meet and dope out strategy with regard to the presentation of the Party statement to the club itself. In fact, at one of these meetings [ ] who indicated he had been in touch with [ ] came into the caucus with a prepared script as to the role each caucus member would have at the club meeting when this statement was brought up. These individuals rehearsed their role and at the club meeting which was attended by [ ] and CLAUDE LIGHTFOOT this leadership was given extremely rough treatment. The Railroad Club left leadership called for a withdrawal of the Party statement. This motion was accepted by a vote of six to two and thus the Party leadership was handed another major setback.

Further, in April, 1963, an informant delivered two other sealed letters to members of the Russian Club who followed the pro-Chinese views. These letters called for the recipients to report to CLAUDE LIGHTFOOT on different dates to face a disciplinary committee of the Party and answer charges against them. The exact results of this action and whether the hearings in fact occurred are not known to this office. CG 5824-S\* did advise in April, 1963, that [ ] of the Southeast Club had been selected for expulsion from the CP.

b6  
b7C

"Ad Hoc Bulletin" April, 1963

Based upon the tangible results effected by bulletin #2 setting forth a pro-Chinese view, the counter-intelligence agent made recommendations approved by the Bureau for an "Ad Hoc Bulletin" containing a reprint of an editorial appearing in "Renmin Ribao," official organ of the Communist Party of China (CPC), which contained the CPC reply to the CPUSA statement publicly attacking the CPC. This reprint consisting of approximately 12 pages according to the bulletin was published as a public service with the request that these issues be raised and discussed at club meetings. The contents of this bulletin are particularly pointed on the issues that the counterintelligence move had been trying to create on the Sino-Soviet conflict and it was felt that they would be particularly effective. Fifty copies of this bulletin were mailed.

At a Club Chairmen's meeting in early April, 1963, speculation again was raised as to the source of these documents. LIGHTFOOT stated that according to [redacted] is the AHC. He reported that she was attempting to form a pro-Chinese grouping in Chicago, and [redacted] who was also attending the meeting, stated that it was very possible. [redacted] the proprietor of a Chinese book distributing house in Chicago, was also mentioned in this connection. [redacted] stated, "we have lived with this thing long enough and I think we are absolutely correct in ordering at once for all to resolve it. I don't see any yielding."

During the course of this meeting it was brought up that [redacted] in issuing the Party statement in March, might have gone too far by accusing [redacted] of heading the AHC without first discussing the matter with [redacted]. This was apparent to the leadership, and it was felt that a clarifying statement might be necessary in order that the membership would have a clear understanding of the issue. It was agreed that this may have been a tactical error because the Party statement had tied in a CP front organization in which [redacted] was active with the "Ad Hoc Bulletin."

b6  
b7C

"Ad Hoc Bulletin" #4, May, 1963

Because the CP had attacked the MCPFB document of November, 1962, and used this as a basis for tying in [redacted] with the "Ad Hoc Bulletin" and with the Chinese line, the counterintelligence agent prepared bulletin #4 dated May, 1963. This bulletin defended the action of the MCPFB and

condemned the defense of imperialism by the CP. It called for a return to the revolutionary principles of [redacted] Stalin, [redacted] It called for a reversal of revisionism and an ideological house cleaning and discussions of basic Party policies as well as the withdrawal of the Party statement. b6 b7C

This bulletin likewise had immediate results. In late May, 1963, a leading club on the north side had discussions concerning the bulletin and ways and means of stopping the activity of the Ad Hoc people. No one at this club could offer suggestions as to how the bulletin could be combatted.

At about the same time [redacted] stated that [redacted] was fully aligned with the anti-Party group headed by [redacted] in New York.

At a meeting of the 9th Congressional Club held in May, bulletin #4 was the main topic of conversation. Club members were of the opinion that the bulletin had national backing and those mailing same had access to "The Worker" mailing list.

At a meeting of the State Board in May, 1963, LIGHTFOOT discussed the factional dispute and stated that the Party should issue a statement to clarify the relationship of the Party to the MCPFB. He admitted that the phraseology of the March Party statement was a tactical error; however, the substance of the criticism, according to LIGHTFOOT, was still valid. b6 b7C

"Ad Hoc Bulletin" #5, August, 1963

The counterintelligence agent, noting the results obtained to date and the criticism of the Party leadership, after considerable research prepared bulletin #5 entitled "A Look Toward Leadership." This bulletin attacked [redacted] LIGHTFOOT, [redacted] and [redacted] on a basis of LIGHTFOOT's moral decadence and adherence to the ideology of the petty bourgeoisie, [redacted] on a basis of a cold and rigid personality, the inability to compromise and his bureaucratic methods of work. [redacted] was charged with being a "rehabilitated alcoholic" who had not been so "rehabilitated." The bulletin called for better leadership in the District and the removal of certain Party leaders.

The Bureau by letter of September 6, 1963, noted that it was pleased with the substantial disruptive results obtained in the Illinois District through the use of the "Ad Hoc Bulletin" and that it was readily evident to the readers of bulletin #5 that the people associated with preparing the bulletin have a detailed current knowledge of Party operations in the Illinois District. It was further noted that the District functionaries are greatly concerned about the committee as noted by references by various functionaries to it as a "dangerous group," and by LIGHTFOOT as designed to "split asunder" the Party.

b6  
b7C

"Ad Hoc Bulletin" #6

At the request of the Bureau, bulletin #6 on the "Negro Question" was prepared after extensive research by SA STALLINGS. It alluded to the statement of [redacted] which appeared in the "Peking Review" of August 16, 1963, on the American Negro. It was designed to attempt to embarrass [redacted] who recently assumed a position of leadership in the Party, by exploiting pro-Chinese statements made by him at an October 6, 1963, meeting.

Almost immediate tangible results were received on this bulletin since its contents represented an "extreme left" position. It began with a brief history of the Party's attitude on the Negro question since 1930 and blamed the leadership for neglect of this question and revisionism. It tried to weave a thread of pro-Chinese sentiment by accusing the Party leadership of defending the Kennedy Administration and United States imperialism and tied the Negro question in the United States to the Soviet-Chinese ideological dispute. It welcomed [redacted] back into the leadership of the Party and quoted a pro-Chinese statement made by [redacted] in New York. This document was widely circulated by the Bureau and resulted in immediate alarm on the part of [redacted] to the point where in November, 1963, he issued a full one-page statement under his own name and addressed "To Whom It May Concern" in which he defended his position and attacked the writers of the document.

GUS HALL became aware of the bulletin through efforts of this office, and on October 28, 1963, he had a conference with [redacted] wherein he produced a copy of the bulletin. [redacted] reportedly apologized for his New York remarks and conceded that he had made a mistake. It has been reported that national officers of the Party including HALL were very much disturbed by [redacted] remarks.

We have no information as to the exact number of copies of [ ] statement that were placed in circulation. However, reports indicate that possibly two to three thousand such copies were printed. We feel that [ ] as a result of this move, may have been discredited in the eyes of the national leadership to some degree and that the over-all results of this bulletin may yet be in the making.

b6  
b7C  
b7E

Currently, SA STALLINGS is in the process of a follow-up "Ad Hoc Bulletin" in answer to [ ] reply to this bulletin. However, the exact lines that this bulletin will pursue have as yet not been concretized.

#### Results of "Ad Hoc Bulletins"

Many of the results of these bulletins we feel have not yet totally accrued. The following are some of the results which appear to date and it is believed they are outstanding:

[ ] possibly has been expelled secretly. She no longer submits her club dues to the Party office. Other Party members have resigned or stopped attending meetings or have joined left wing caucuses. The number in this category is unknown; however, there are six in a caucus headed by [ ] out of the Railroad Club alone. It has also been reported that other individuals have quit the Party over the [ ] expulsion. There were also a number of people in the Nationality Section of the Party who are

sympathetic to [ ] who are no longer attending meetings of the CP. We feel that the total loss to the CP in expulsions, resignations, and those boycotting meetings could number approximately 25.

5. The MCPFB has been completely divorced from control of the CP of Illinois. This was one of the most effective front organizations in Chicago. It is now under the complete control of [ ] and [ ] who are believed to be using this as a base for organization of the [ ] faction.

6. As in any factional fight, the structure of the leadership and its efforts is diminished, and the wounds that such a fight cause are difficult, even impossible, to completely heal. It is hoped that these wounds will continue to remain open and that future utilization of this bulletin will assist in this matter.

Use of Press Media in  
Counterintelligence Program

SA STALLINGS, continuing efforts of the counterintelligence program to discredit CLAUDE LIGHTFOOT through the utilization of LIGHTFOOT's continued high living and women chasing activities, was the originator of a suggestion approved and disseminated by the Bureau in the form of a news item in the "Chicago Tribune" of March 11, 1963. This item was cleverly written by the agent and carried a story on LIGHTFOOT along with photographs of his country home in Monterey, Indiana. The article referred to his numerous girlfriends, his social life in night clubs, etc. Through the utilization of another informant this article was forwarded to [ ] and to the National Office, CPUSA.

b6  
b7C

This is part of a long-term effort to discredit LIGHTFOOT in the Negro community and in the CP which was begun in 1962 and is continuing wherever the opportunity arises. Excellent results have been obtained and informants report there is much dissatisfaction with LIGHTFOOT's leadership and with his failure to conduct responsible Party activities due to his "playboy attitude."

A second excellent suggestion which was approved and handled by the Bureau was submitted to the Bureau by SA STALLINGS on June 10, 1963. This item concerned the utilization of a prominent and successful Negro businessman in the Chicago area

for an interview by a leading magazine so that he might bring the racial issue and opportunities available to the American Negro in the United States to their attention. The idea for this suggestion was conceived during an interview by SA STALLINGS and his supervisor wherein [redacted]

[redacted], indicated he had an excellent philosophy on the racial problems generally and on the responsibilities of American Negroes to elevate themselves and to make themselves worthy of opportunities in society.

b6  
b7C

Subsequently, the "U.S. News and World Report" of August 19, 1963, contained an exclusive interview entitled "A Negro Businessman Speaks His Mind." This article was circulated nationally and contained an excellent pro-American philosophy by this prominent, nationally known American Negro.

#### Anonymous Mailings

During the pertinent period SA STALLINGS has suggested and made numerous anonymous mailings on the Jewish question, on the civil rights question and various other matters in connection with this program. Usually such mailings of themselves are hard to gauge as regards results.

However, in August, 1963, this office became aware of CP efforts to organize a new youth organization in the Chicago area. An informant furnished an original of an invitation to attend this meeting. With Bureau approval this invitation was duplicated and copies were sent to SWP and Young Socialist Alliance (YSA) members and other individuals who it was felt might cause disruption of the meeting.

This meeting occurred on August 11, 1963, and an informant reported that there were 12 persons from the YSA who, during the proceedings at which an attempt was made to form a new youth organization, made proposals and suggestions as well as offered amendments to the proposed constitution. The YSA members took up 45 minutes of time attempting to revise a "Statement of Purpose" alone.

Following the hassle on the "Statement of Purpose," 9 of the 12 disruptionists left the meeting. [redacted] CP youth leader, announced that invitations had been forged and many present had not been officially invited. One of the remaining members of the YSA protested that he had received his invitation through the mail at his home address. Two other

b6  
b7C

individuals who had recently resigned from the Party also attempted to attend this meeting. They were refused admission on the grounds that this was a youth meeting and that they were not youths.

An informant reported that [ ] was extremely upset by the appearance of the group from the YSA and suspicion was directed by him toward a member of the American Nazi Party who he believed had picked up one of these invitations.

b6  
b7C

This counterintelligence move caused the youth leaders much apprehension and frustration. It alerted the disruptionist group to the formation of this organization.

Another excellent suggestion of this agent for an [ ] was designed to contradict the Soviet charges of United States imperialism in the colonial areas. In September, 1962, SA STALLINGS submitted an original idea for Bureau approval calling for [ ]

[ ]

The purpose of this suggestion, as indicated, was to

Elevation of Informants Through

During the course of this period SA STALLINGS utilized four Bureau approved informants. [REDACTED] was [REDACTED]

Moreover, through guidance of this informant he has enhanced his Party position by remaining as [REDACTED] by elevating himself to [REDACTED]

[REDACTED] through guidance in connection with the counterintelligence program was named as [REDACTED]

SUMMARY

The above is an outline and contains only the highlights of the program and successes this agent has had in the counterintelligence program of the Chicago Office. It is believed that his work in connection with the "Ad Hoc Bulletin" which requires originality and a studious approach to Marxism-Leninism together with some knowledge of psychology, has been outstanding. It is noted that SA STALLINGS has invoked a well rounded program with many and varied approaches to this program.

It is felt that under his leadership the Chicago counter-intelligence program is one of the leading, if not the leading, counterintelligence program in any of the divisions of the Bureau. He has displayed tremendous enthusiasm and diligence in his work, and on a basis of this work he is being recommended for a quality salary increase.

Supervisor CARL N. FREYMAN is being recommended for incentive award for his accomplishments in selecting outstanding counterintelligence agents to handle this program over a period of years and for his constant attention, guidance and supervision of the program since its inception. His intimate knowledge of the CPUSA, its program and history, and particularly the Sino-Soviet rift, has been reflected in the results obtained. He has furnished the counterintelligence agent with constant suggestions as to the line of approach of the "Ad Hoc Bulletins" generally and with regard to the program as a whole. The results of the counterintelligence program and supervision of this agent are directly due in my opinion to his exceptional direction of the program. I personally know of his sound belief in the program and his enthusiasm to obtain new and constantly better results. Accordingly Supervisor FREYMAN is being recommended for incentive award.

Dear Mr. Hoover:

I wish to acknowledge your kind letter of sympathy regarding the recent loss of my mother.

The consideration which you have given over a period of years to my personal problem regarding my mother has been greatly appreciated. It has enabled me to periodically comfort my mother through visits and to assist her in her lengthy illness. She has many times during her life expressed appreciation for your consideration of my personal problem and in permitting me to assist her during this period.

Since my personal problem has been resolved through the death of my mother, I am now available for general or special assignment. It will be my continued objective to serve you and the Bureau in the same manner in which I have served in my 23 years of service with the Bureau.

## RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:  
+ Outstanding (exceeding excellent and deserving of special commendation).  
E Excellent.  
✓ Satisfactory (good or very good).  
- Unsatisfactory.  
O No opportunity to appraise performance during rating period.

### Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
  - Any element rated "Unsatisfactory" must be supported by narrative comments.
  - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

SUBJECT: SA CARL N. FREYMAN  
Supervisor - Security Squad #2  
Chicago Office  
EOD 2-2-42; GS-13, \$14,420  
RE: PROMOTION

*my sister*

SA Freyman has been recommended for Grade GS-14 promotion based on his excellent supervisory performance in the Chicago Office and in his attached 1964 annual performance report SAC M. W. Johnson rated him Excellent and stated he is interested in, available for and considered to have excellent qualifications for administrative advancement.

SA Freyman entered on duty as an Agent 2-2-42, was promoted to Grade 12 on 7-28-46 and to Grade 13 on 3-2-52. He has been serving as a full-time Supervisor in the Chicago Office since 11-1-54 and was promoted to Grade 14 on 1-1-56 in view of his supervisory responsibilities. He was ordered to the Seat of Government in May, 1957, however, this transfer was cancelled because of a personal problem involving his mother. He was most appreciative of this transfer because he considered it advancement which he had looked forward to for many years; however, he had complete responsibility for his mother who lived in Iowa and he had been unable to persuade her to live with him. In view of his unavailability for transfer it was also necessary to adjust his salary from Grade GS-14 to Grade GS-13, effective 6-30-57. In this connection Mr. Tolson noted, "I discussed this case with Mr. Hoover. He should be reduced from GS-14 to GS-13 due to unavailability-but he may be continued on supervisory duties." SA Freyman was last considered for GS-14 promotion on 4-26-61 and was passed over to be reconsidered at such time as he was completely available for assignment. SA Freyman's mother passed away on 2-17-64 and he subsequently advised that he was now completely available for general or special assignments. He expressed his appreciation for the consideration shown him by the Bureau.

During his tenure as an Agent SA Freyman has been Censured on 6 occasions, the latest being on 12-12-61 for failure to bring immediately to his SAC's attention information in connection with the handling of an Internal Security Case. On the other hand, he received Cash Awards on 9 occasions, the latest being on 1-22-64 for effective supervision of a confidential source of information of major importance in the Security field. (Re: CG 5824-S\*); and has been Commended on 22 different occasions and received a Meritorious Increase in salary on 8-3-52. His most recent commendation was dated 2-5-64 for exemplary supervision of a program of vital importance to the Bureau in the security field. (Re: Counterintelligence Program).

In his present supervisory capacity SA Freyman has over-all supervisory responsibility for approximately 25 Agents handling basic revolutionary groups, front groups, top functionaries, key figures and security informants, and a pending active caseload of approximately 450 cases. He also supervises the Solo operation which is one of the most delicate and complicated investigative matters being handled in the entire Bureau. The SAC stated in view of his knowledge of the Solo operation and other Communist Party matters in the area, he was invaluable to the Chicago Office. His attitude is outstanding, he is most effective in his contacts, he is forceful and impressive and instills confidence and performs his supervisory assignment in an exemplary manner. His overtime performance has been satisfactory.

Statistical accomplishments of the Chicago Office for the first 9 months of fiscal year 1964 as compared with the same period during fiscal year 1963 reflect no change in Convictions; a 55% increase in Fines, Savings and Recoveries; an 8% increase in Fugitives Apprehended and a 12% decrease in Automobiles recovered.

SAC M.W. Johnson of the Chicago Office is presently in Grade GS-17 and ASAC Welte is in Grade GS-16. There are 11 full-time Supervisors in the Chicago Office, including SA Freyman, 8 being in Grade GS-14 and 3 in Grade GS-13.

Under present policy, full-time Field Supervisors are eligible for GS-14 promotion consideration upon completion of 2 years continuous supervisory experience with 5 years in Grades 12 and 13. SA Freyman presently meets this requirement and, in fact, has been serving in a full-time supervisory capacity approximately 9 years 6 months. Action concerning his promotion has previously been held in abeyance in view of his unavailability, however, this restriction has now been removed and he is completely available for any assignment. In view thereof, and in view of his otherwise over-all excellent record, excellent qualifications for further administrative advancement and the excellent manner in which he is performing his duties at the present time, it is felt that favorable action concerning his promotion is warranted.

RECOMMENDATION:

That he be promoted to Grade GS-14 for the duration of his supervisory assignment.

Dear Mr. Freyman:

The attention of the Bureau has been directed to an instance in which you failed to adequately discharge your supervisory responsibilities. In the Internal Security case involving the Communist Party, USA, you failed to insure that necessary action was taken to adequately safeguard information relating to a confidential informant although specific instructions pertaining to this matter had been previously furnished by the Bureau. Your explanation concerning this dereliction has been carefully considered; however, you were clearly at fault.

Hereafter, it will be incumbent upon you to handle your supervisory assignments with more alertness and care so that shortcomings of this nature will not again be chargeable to you.

Re Bureau airtel 3/4/64, asking for explanations in connection with the inclusion of certain information from CG 5824-S\* in the report of SA [REDACTED] dated 7/20/64, at Chicago. This report was the quarterly report for captioned case.

Chicago deeply regrets this serious oversight. As the Bureau knows, both Supervisor CARL N. FREYMAN and I have constantly sought ways in which we can further improve the security of information received from this top-level informant. In connection with this matter, I would like to submit the following observations.

This quarterly report has for some period of time been handled by SA [REDACTED] and as the Bureau knows, his performance in this regard has left little to be desired. It was necessary, however, to utilize SA [REDACTED] on a major kidnaping special and therefore he was not available to prepare this quarterly report. In the absence of SA [REDACTED], SA [REDACTED], a thoroughly competent and experienced agent and relief supervisor was assigned to write this report. Original and one copy of the explanation of SA [REDACTED] are attached. The report was approved upon its completion by Supervisor CARL N. FREYMAN. The original and one copy of FREYMAN's explanation are enclosed.

As the Bureau will note from the attached explanations, the prior correspondence from the Bureau and our reply dated 5/12/64, were not contained in the files which SA [ ] was required to review. I do not feel that SA [ ] was at fault in this matter as there is always a question as to whether or not the name of an informant who attends a meeting should be included in dissemination memo or not. In this instance, we are all agreed that it should not have been included, however, SA [ ] has not worked the SOLO matter, has not handled CG 5824-S\* and therefore is not acquainted with the intricacies of this particular operation. He should have been able to rely on the information which was in the files which he reviewed. I therefore recommend no administrative action concerning SA [ ].

b6  
b7C

In my opinion, the error in this matter was caused by Supervisor FREYMAN not insuring that a flag was properly placed with this information obtained from CG 5824-S\*, making sure that the information was handled properly. Secondly, of course, Supervisor FREYMAN should have caught this in the report when he reviewed it. I therefore feel that in this instance, Supervisor FREYMAN is at fault. As the Bureau knows, FREYMAN's contributions to the SOLO operation down through the years has been truly outstanding. He is one of the most devoted, loyal and efficient agents and supervisors I have ever had the pleasure to work with. His dedication to the SOLO program and his dedication to the protecting the security of this country is a real inspiration to all agents who have occasion to work with him.

b6  
b7C

By airtel 8/6/64, the Bureau was advised that following my telephone conversation with Inspector [ ] of the Bureau, we were able to obtain all copies of questioned report and are now in a position to submit the amended page without the other agencies being aware of what page we changed. Therefore, the chances of the identity of our informant being disclosed because of this incident in my opinion are practically nil.

CG 67-832

Despite the corrective action which we have been able to take to correct this situation and despite FREYMAN's excellent performance in the handling of these matters down through the years, he was wrong in this matter and I recommend that he be furnished a letter of censure emphatically calling this matter to his attention so that there definitely will never be a recurrence.

CPUSA, ILLINOIS DISTRICT

BUfile 100-3-14

Set forth herewith is my explanation concerning setting forth all Illinois District National Board members in my report of 7/20/64 entitled CPUSA, ILLINOIS DISTRICT, CHICAGO DIVISION, IS-C, page six.

In late May, 1964, I was given the assignment of reviewing all CP of Illinois subfiles for the preparation of the Illinois District report inasmuch as the agent previously assigned to this report was on special assignment in the Chicago Office.

In connection with this review, I reviewed the CP of Illinois Organization file in which was contained a letter to the Director dated 4/22/64 captioned CPUSA ORGANIZATION, setting forth the identities of all National Board members of the CPUSA. Contained therein were the identities of four Illinois District functionaries.

Being mindful of the security of all confidential informants of the Bureau and especially mindful of the security of the Bureau's top informant CG 5824-S\*, I reviewed previous reports in an effort to make some determination as to the policy of the Chicago Office and the Bureau to the reporting of information concerning the position of CG 5824-S\* in the District and in the national organization. At this time I was not cognizant of communication between Chicago and the Bureau which appeared in the Solo file precluding the setting forth of any information to be disseminated indicating this individual to be a member of the National Board.

I am deeply regretful that this security problem occurred. I spent many hours preparing this report to make it a meaningful and accurate report. I assure you that the inclusion of the name of CG 5824-S\* in this report was not wilful or wanton but was due to the fact that I had no knowledge of the pending instruction.

In accordance with your oral request, I am submitting herewith my explanation as supervisor for the CPUSA investigation as to how the name of CG 5824-S\* was included in Chicago report of the CPUSA, Illinois District, submitted to the Bureau on 7/20/64, which report was written by SA [REDACTED].

The question of inclusion or exclusion of this individual's name in a listing of the CPUSA National Board members first arose on the submission by this office of a memo on 4/24/64 of information concerning a National Executive Committee meeting held in New York in April, 1964. The Bureau raised this question in its airtel of 4/30/64 submitted under the caption of the CPUSA-Organization which was placed in our CPUSA national organization file which is maintained as a dead file in this office.

For security reasons I instructed the answering agents to set out the reply to the Bureau airtel under a Solo caption and it is included in Chicago file [REDACTED] which is maintained in your office on a need to know basis. I noted in the CPUSA national organization file that a reply to that airtel was in the Solo file.

As you are aware, SA [REDACTED] is regularly assigned to the CPUSA investigation and to the writing of this report. SA [REDACTED] has been under special assignment to the kidnapping squad since approximately 5/28/64. I therefore designated SA [REDACTED] to write the Party report and this was the initial report which he prepared in this matter.

b6  
b7C  
b7D

In preparing this report our agents review some 24 separate Illinois District subfiles, each of which comprise a section of the report. SA [REDACTED] began preparing this report

on or about 6/15/64 and worked on it continuously until the day it left this office on 7/20/64. In connection with his voluminous file reviews he, as is normal procedure in preparing this report, reviewed all of the Illinois District subfiles. He is not required to review the national files where the incoming Bureau communication is located because under proper channelization all materials on matters pertaining to the District activities are automatically channelized to the CP of Illinois subfiles. Therefore SA [ ] in the absence of specific oral briefing by me had no notice of the communications between this office and the Bureau with respect to including or excluding CG 5824-S\* from his Party report.

b6  
b7c

I read the District Party report verbatim following preparation by SA [ ]. It consists of in excess of 100 pages. When I read the report, I read it for accuracy as well as content. In connection with the listing of the National Board members, I was aware that the District officers who are members of the National Board and the statement reflecting this listing was accurate. I neglected to recall the correspondence of some 2½ months previous with regard to the listing of CG 5824-S\*. I assure you that this was not a wanton disregard for this informant's security. No one in the Bureau is more conscious of the need to secure this informant's identity than I. Through the years I have fought to secure this informant's identity through a restriction of information furnished by him. I did in this instance fail to detect or to recall the correspondence of some 2½ months previous, and I am sincerely regretful. I assure you that in the future I will make every effort to see that this error does not occur again.

Purpose of this memorandum is to recommend censure for Chicago Field Supervisor Carl N. Freyman for failure to take the necessary steps to adequately safeguard information relating to CG 5824-S\*, a very valuable security informant.

Report of SA [ ] dated 7/20/64, which is the quarterly report submitted by Chicago in captioned matter, contained information listing CG 5824-S\* as a member of the National Board of the Communist Party, USA (CPUSA). The reporting of this information was contrary to instructions issued by the Bureau to the Chicago Office in May, 1964, under the caption "Solo, Internal Security - C" (control file for the activities of CG 5824-S\*). Although SA [ ] report was classified "Confidential," the publicizing of this information could very likely result in the exposure of CG 5824-S\* and thereby seriously jeopardize our coverage of the top echelon of the CPUSA as well as developments within the international communist movement.

SA [ ] report was disseminated by Chicago to the local military intelligence agencies which required the retrieving of all copies of this report in order that an amended page could be inserted deleting the name of CG 5824-S\* as being a member of the CPUSA National Board. Bureau airtel to Chicago 8/4/64 requested explanations of responsible personnel together with recommendations for administrative action.

RE: COMMUNIST PARTY, USA

SAC, Chicago, in the attached letter dated 8/7/64 submitted explanations from SA [ ] who prepared the report and Supervisor Freyman who approved the report. SA [ ] states he had no knowledge of Bureau instructions that the name of CG 5824-S\* was not to be included in the report since the instructions were in the "Solo" file which he was not required to review. Supervisor Freyman assumes full responsibility for this dereliction stating he neglected to recall the Bureau instructions of some two and one half months previous with regard to the listing of CG 5824-S\* as a member of the CPUSA National Board. SAC states that SA [ ] is not at fault because he had no knowledge of the Bureau's instruction in this matter. SAC stated the dereliction was caused by Supervisor Freyman for not insuring that a flag was properly placed to adequately safeguard the information relating to CG 5824-S\* membership on the National Board and for failing to detect the listing of CG 5824-S\* in that regard when he approved SA [ ] report. SAC recommends that Supervisor Freyman be censured emphatically calling this matter to his attention so that there will never be a recurrence.

RECOMMENDATION:

The Domestic Intelligence Division concurs with the recommendation of the SAC, Chicago, that Supervisor Freyman be censured for his dereliction in this matter, and that no action be taken relative to SA [ ] inasmuch as he had no knowledge of the Bureau's instructions. All necessary corrective action has been taken both in the field and at the Seat of Government insofar as correcting SA [ ] report in captioned matter dated 7/20/64.

SAC JOHNSON: This personnel write-up is being prepared as Mr. FREYMAN is the Supervisor of Security Squad #2 in the Chicago Office. I consider Mr. FREYMAN to be above average as a supervisor. He is one of the most dedicated and loyal employees I have ever had the pleasure to know. He is mature and possesses outstanding judgment. As Supervisor of Security Squad #2, he supervises the basic revolutionary groups, front groups, top functionaries, key figures, and security informants. The Bureau's Solo operation is under his supervision in this office. On 7/12/63, Mr. FREYMAN was commended by the SAC for his aggressive participation in the Bureau's recruiting program. By letter dated 10/14/63, the Director advised Mr. FREYMAN that he was being given an incentive award for his outstanding participation in a security operation. By letter dated 1/21/64, Mr. FREYMAN was commended by the Director for the superb job he did in preparing an analysis entitled "History and Development of the Sino-Soviet Rift." By letter dated 1/22/64, the Director gave Mr. FREYMAN an incentive award for his outstanding performance and leadership in an important security matter. By letter dated 2/5/64, Mr. FREYMAN was commended by the Director for exemplary supervision of a program of vital significance to the Bureau in the security field.

By letter dated 8/17/64, Mr. FREYMAN was censured by the Director for not adequately safeguarding information from an informant which was set forth in a communication. This is definitely not typical of the performance of Mr. FREYMAN as he is ordinarily most meticulous and extremely conscientious about all matters in the security field.

Mr. FREYMAN is interested in administrative advancement and there are no limitations affecting his availability. I would rate him excellent as far as his potential for further advancement in the Bureau is concerned.

Inspector agrees with SAC's comments and evaluation of Supervisor Freyman. He makes a fine

appearance, has an effective personality and exhibits an enthusiastic and mature attitude toward his responsibilities. It is apparent in discussion with him that he is capable and highly knowledgeable concerning top-level Communist investigations and operations under his supervision. His competence in this field was noted to be highly rated by his supervisory associates and squad members alike.

SA Freyman has been commended three times and received two incentive awards since the last inspection for aggressive participation in the recruiting program and for imaginative and productive participation in and supervision of programs and operations of significance in the security field. He was censured in August, 1964, for not adequately safeguarding information from an informant set forth in a communication. He appears to be in good health and is within desirable weight limits. His overtime was substantial during the 3-month period preceding the inspection.

SA Freyman expressed a desire to advance administratively and advised he is available for such advancement. Inspector feels he has excellent qualifications for administrative advancement pursuant to the needs of the Bureau.

SPECIAL AGENT CARL N. FREYMAN  
COMMENDATION MATTER

SAC, Chicago, by letter and FD-255 dated 9/10/64 recommends an incentive award for SA [REDACTED] and individual letters of commendation for SAs [REDACTED] and Carl N. Freyman. The recommendation for the incentive award is based on SA [REDACTED] performance which has involved the overcoming of unusual difficulties in developing [REDACTED] as a security informant and guiding her into membership of the Communist Party (CP). The recommendation for individual letters of commendation for SA [REDACTED] and SA Freyman is based on the substantial assistance given in the informant case by SA [REDACTED] and SA Freyman's supervision of the case.

SAC, Chicago, points out that in the Fall of 1963 information was received the CP intended to recruit a limited number of members. SA [REDACTED], who had the responsibility of developing security informants in the Skokie-Evanston-Northwest suburban area which had two CP clubs, both of which were extremely security conscious, surveyed local contacts who could be developed as security informants and who would be acceptable to the CP as new members. He determined that the twenty-three-year-old daughter of [REDACTED] a member of Evanston's CP club, might be developed into an excellent informant. After tactfully discussing the matter with [REDACTED] the informant's approval was obtained. On 4/15/64 initial contact was made with [REDACTED]

In spite of [REDACTED] expressing a feeling she lacked confidence to fulfill the role of an informant, through SA [REDACTED] indoctrination, guidance and supervision she was placed in contact with CP members with satisfactory results. Thereafter, he formulated a plan for [REDACTED] to discreetly bring to the attention of the Party [REDACTED] excellent potential as a member. The Party was considering other individuals as possible recruits and contemplated adding only one new member. Through the constant careful guidance given by SA [REDACTED] to [REDACTED] and [REDACTED] the Evanston club voted to accept

[REDACTED] as a member. On 5/27/64 she was formally accepted and paid her dues. This fact has been verified by other investigation. Since becoming a member of the Evanston CP club she has attended joint meetings of the Evanston and Skokie Clubs, thus providing coverage of the Skokie Club where no coverage previously existed. During the briefing of [REDACTED] SA [REDACTED] was assisted on numerous occasions by SA [REDACTED] and afforded careful supervision by Supervisor Carl W. Freyman, who spent many long hours giving guidance and directions to the agents individually and keeping the SAC currently abreast of all developments.

OBSERVATIONS:

[REDACTED] development as a security informant and her entry into the Evanston CP Club is a meritorious achievement it being noted that only four security informants have been able to become members of the CP during this year. The achievement was the result of extreme alertness on the part of SA Hurley to note the potential of [REDACTED] and to thereafter skillfully guide her and [REDACTED]. Numerous problems were faced by SA [REDACTED]. These were successfully overcome with the assistance of SA [REDACTED] and the supervision of SA Freyman. This technique of utilizing children of current or former informants is being stressed to obtain additional informants in the CP. Recognition of SA [REDACTED] achievement will be most beneficial to our security informant development program.

RECOMMENDATIONS:

1. SA [REDACTED] be given an incentive award in the amount to be set by the Administrative Division.

2. SA [REDACTED] and SA Freyman be afforded individual letters of commendation.

ADDENDUM OF THE ADMINISTRATIVE DIVISION, FRP:cmd, 9-21-64.

Information furnished by SAC, Chicago, and Domestic Intelligence Division indicates SA [ ] performed in an outstanding manner in overcoming many difficulties in developing a security informant. Although the informant initially lacked confidence in her ability to fulfill her role, through SA [ ] indoctrination, guidance and supervision informant was able to secure recruitment into the Communist Party and is now providing coverage in an area where it had not previously existed. It is agreed SA [ ] deserves special recognition in the form of an incentive award. b6  
b7C

SA [ ] EOD 7-9-51, GS-13, \$12,915. His performance in the past three years has been entirely satisfactory with no censures and two commendations through his SAC. Rated Excellent on 1964 annual performance report, is completely available, and overtime satisfactory.

Based on approved tables for determining the amount of incentive awards, his services are considered to be of moderate value and broad application to the work of the Bureau entitling him to an award of \$150 to \$300.

It does not appear letters of commendation to SAs [ ] and Freyman are warranted in this instance as they did no more than is normally expected.

RECOMMENDATIONS:

1. That SA [ ] be approved for an incentive award in the amount of \$150. (Amount recommended is in line with awards previously granted for similar performances.) b6  
b7C

2. That SAs [ ] and Carl N. Freyman not be commended.

JUNE

There are enclosed herewith my recommendations for incentive awards for the captioned agents and stenographer [REDACTED] based upon sustained, above-average performance of these personnel from the period January 1, 1964, through January 15, 1965. In addition, a recommendation is being made for commendation to [REDACTED] who as of January 1, 1965, became the alternate stenographer in the Solo operation in Chicago and took voluminous dictation in an outstanding manner of material obtained in the 17th Solo mission.

These recommendations are based on an outstanding year of accomplishments in the Solo operation by responsible personnel of this office, which was culminated in two Solo missions, numbers 16 and 17, during the period October through December, 1964. The stenographic personnel on whom recommendations are made have continued to render devoted and outstanding service to the Bureau whenever their services are required, and through their devotion to duty they enabled the Chicago Office to handle the voluminous materials resulting from the Solo mission in the expeditious manner in which the Bureau desires them to be handled.

The responsible agents as indicated in the attached justification have unsacrificingly given of their time and skills and made many personal sacrifices to accomplish outstanding results in this mission in the past year. These sacrifices include a highly sustained overtime, the use of personal automobiles when they are called in at odd hours and the working of 24 week ends each during the past year. Some of these week ends included holiday week ends.

The letter of commendation from the Director is recommended for [redacted] because, despite the short period in which she has been assigned as the alternate stenographer, she has conscientiously assisted in reporting difficult materials from the 17th Solo mission as well as other materials currently being furnished by the informant. She is an outstanding stenographer and has an outstanding attitude toward her work and she is fully conscious of her responsibilities and the trust we have placed in her in handling these materials.

**JUSTIFICATION FOR INCENTIVE AWARDS  
FOR SAs [REDACTED] WALTER  
A. BOYLE and CARL N. FREYMAN**

b6  
b7C

**A. BACKGROUND**

This recommendation for incentive awards is based on sustained outstanding performance by SAs [REDACTED] and WALTER A. BOYLE in the handling of the Bureau's key double agent case entitled "SOLO" from January 8, 1964, to the present time, in which outstanding results were accomplished. Recommendation is also made for the outstanding performance of Supervisor CARL N. FREYMAN who has immediate supervision of the over-all Solo operation and has been intimately connected with this matter since its inception in 1952. In accomplishing these results, the respective agents were required to use imagination, initiative and good judgment at all times due to the complexities of this ever-expanding operation.

The Bureau is aware of the growth and development and accomplishments of the Solo operation which began in 1952 and has constantly expanded in complexity to the point where at the present time the Solo operation gives the Bureau outstanding international communist intelligence information from practically every country in the world as well as top level coverage of the activities and decisions of the Communist Party, USA (CPUSA).

SA [REDACTED] has been the primary contacting agent since January, 1961, and has on a sustained basis serviced this operation 365 days a year at great personal sacrifice since he is called upon at all hours of the day and night to perform duties. Both agents have also made monetary sacrifices necessitated by this operation.

b6  
b7C

SA BOYLE while designated as the alternate contacting agent since March, 1962, in fact, works jointly with SA [REDACTED] sharing responsibilities on a full-time basis, since the operation and its many ramifications have caused an expansion and need for two full-time agents to service the informant and our cover company, additional informants, and to handle the numerous technical matters that arise on a day-to-day basis. Therefore, these men work jointly on a day-to-day basis in contacts with the informant, sources and other informants and in developing ideas resulting in the continued expansion of this operation.

This case is directly supervised by me with every day supervisory responsibilities by Supervisor CARL N. FREYMAN who developed this informant in 1952 and has either handled or supervised the handling of this case since that time. Both the supervisor and I regularly meet with the informant and his wife to afford this case close, on-the-spot supervision.

Supervisor FREYMAN during the past year has afforded the Solo operation and its ramifications daily close and penetrating supervision. He has personally given on-the-spot supervision through personal contacts with the informant no less than 14 times during the past year and is in almost daily telephonic contact with the informant on policy matters, etc. He has direct supervisory responsibility for decisions made in the preparation of three Solo missions during the past year. This included the planning of the trips, the planning of the type of documents such as passports, credentials to be used, the arranging for secure drop contacts and the final briefings with the informant.

He had direct supervisory responsibility for the cover company, met with informant's brother who runs the cover, and made suggestions for the operation of the cover relative to merchandising, advertising, etc. He had supervisory contact and on-the-spot supervision of the informant's wife regularly during the period and particularly before the 16th Solo mission in which she participated and has developed a close relationship with her.

He had direct supervisory responsibility for the planning of the new cover meeting place and library which will be ready for occupancy on February 1, 1965. This included the making of the original contact, with the SAC, with management of the building and for the over-all supervision and planning of the premises, in setting up the cover, etc. He had over-all supervisory responsibility for the continuance of the operation. This responsibility included the making of important decisions on a daily basis on the over-all operation. It included the direction of the operation, the issuing of instructions on the reporting of information to provide maximum security for the informant, and supervision of recommendations to the Bureau concerning such things as the cover company, utilization of the informant's wife in the operation and the handling of matters involving decisions relative to a joint operation of NY 694-S\* and CG 5824-S\*.

He supervised the reporting and dissemination of some 16 volumes of material received from the informant during the pertinent period. These responsibilities included the decisions as to the methods of reporting sensitive information, the preparation of cautionary statements, decisions on the type of dissemination and on the adequacy of dissemination.

This recommendation is based on the sustained outstanding performances by these agents over the past year which was again culminated by two Solo missions, one beginning in October, 1964, and the other in December, 1964, in which outstanding results were achieved and again in which these agents overcame obstacles in these accomplishments. These missions, numbers 16 and 17, were planned in intimate detail by the contacting agents and on the basis of these plans and subsequent developments they have established a basis we believe for the informant to be in line for Solo mission #18 in about mid-February, 1965.

**B. PROBLEMS INVOLVED EVIDENCING SUPERIOR  
HANDLING OF CG 5824-S\*. HIS WIFE**

**DURING PERTINENT PERIOD**

1. During the pertinent period, these agents with careful planning prepared CG 5824-S\* for three Solo missions, one of which was cancelled through no fault of the agents, for the informant, and [redacted] for one Solo mission. This preparation involved decisions as to passports to be used, providing the informant and [redacted] with necessary documents to give them authenticity, preparing with the informant the numerous complex ideological documents which he carried with him, which preparation involved extensive research and knowledge so that they would be acceptable to the Soviets, the planning of the trip itself including passports to be used, assisting the informant in travel arrangements, being certain that he was travelling clean and lastly but most importantly, in keeping the informant and [redacted] in the proper frame of mind to induce them to make these trips in the interest of the government and at great personal and financial sacrifice to both of them.

b6  
b7C  
b7D

As an example of personal and financial sacrifice, it is pointed out that in Solo mission #16, the informant's wife, a social worker, had to obtain a two month leave of absence without pay. On her return to Chicago and to her job she had found that she had lost eight years of seniority in her job and was classified as a beginning worker. To keep these informants in the proper frame of mind to adversities such as this has been a continuing problem for these agents. In addition, when CG 5824-S\* travels alone, the agents have met the problem of placating the informant's wife's loneliness and worry when he is gone for extensive periods of time. They have succeeded in this regard and also in placating her to accept the informant's frequently required absences from the city on CPUSA business.

In 1964 alone the informant was out of the city 137 days, including many week ends, and some holidays, and the agents have managed to cause the informant's wife to accept the need for these trips despite the fact that their marriage appears to be a happy one and they have been married only a few years. The problem in this regard is further complicated because the informant's wife is independently wealthy and there is no dependence on Bureau income for them to enjoy a comfortable living. The agents have most successfully worked on the informant's wife to engender in her the patriotic need for CG 5824-S\* to continue to serve his country.

2. The agents with the assistance of CG 5824-S\* prepared the majority of documents carried by NY 694-S\* on the 15th Solo mission and most of the documents were made up in Chicago.

3. The agents arranged plans for CG 5824-S\* to make a trip to Canada without detection in June-July, 1964.

4. The agents, [REDACTED]

5. After being aware of [REDACTED]

accompanied CG 5824-S\* to [redacted]

[redacted] Dissemination and  
review of these matters is still continuing.

6. SA ROYLE is responsible [redacted]

7. It has been long recognized that the volume of books and documents which CG 5824-S\* has accumulated since about 1920 in the communist movement should be gathered together, catalogued and placed so that they could be of use to the Bureau and the informant. With the assistance of my SAC contact, we have rented such space and the books will be gathered together and catalogued in the near future. Much of the details including the planning of the space outlay, preparation of a front for this business, negotiating with the landlords, setting up bank accounts, etc., were worked out by the contacting agents.

8. During the past 12 months, this operation has accumulated 16 additional volumes consisting of 1686 serials of information and correspondence. Approximately six serials a day consisting of items of varying length and pages were prepared. This volume of work requires constant application of time and effort and cannot be done on a normal work day. These agents overcame this problem by each voluntarily working on 24 week ends and holidays in 1964 and by working 2'40" of voluntary overtime during the past year. Both agents at great personal sacrifice during the year were out of the city servicing the informant. This included the New Year's holiday.

### C. RESULTS OBTAINED

By far the item of first primary importance is the over-all continuation of the Solo operation and the close association of CG 5824-S\* with GUS HALL and the CPUSA national leadership. Throughout the year these agents have worked religiously in planning each move of the informant and designing it in such a way that these accomplishments could continue. Again, this successful year was climaxed by two successful Solo missions, in October and December, 1964.

The 16th Solo mission was the result of instructions received directly from GUS HALL to the effect that the informant was to visit the USSR for the specific purpose of obtaining facts concerning the KHRUSHCHEV ouster for the American CP. The mission was a short one because the informant was instructed to immediately return and report details to the American Party. The second purpose of the trip was to obtain additional information concerning the status of the Sino-Soviet rift and a determination as to whether the December conference among these great parties was to take place.

The informant was able to provide the Bureau with the results of personal discussions on these subject matters with [REDACTED]

Through these contacts the informant was able to furnish the details of [REDACTED]

The 17th Solo mission began on November 29 and terminated with the arrival of the informant in Boston on December 31, 1964. On this trip he met with representatives of the CPSU, CP of Czechoslovakia and the CP of Germany. [REDACTED]

We also were able to ascertain that the "World Marxist Review," theoretical organ of the international communist movement, may go out of existence. We also learned the identities of those Parties which as of the present time are either hesitating or have declined to participate in the March 1, 1965, conference.

The informant was able to furnish [REDACTED]

In addition to the accomplishments of the Solo mission, the following additional accomplishments were achieved by this informant under the direction of these agents through the remaining part of the year:

1. He has maintained and strengthened all of his positions in the leadership of the CPUSA including the National Board, National Committee, National Review Commission, the Foreign Affairs Committee and his key position as being the official representative of the American Party to Parties throughout the world.

2. We obtained the CPUSA National Review Commission records from about 1920 to 1954 consisting of over 8,000 documents.

3. We effected movements of CG 5824-S\* to New York and other cities, Canada and abroad for key meetings of the American Party and the international communist movement. The informant, through these trips, was away from his base of

operations, Chicago, for a total of 137 days. In addition, the informant obtained and furnished on a daily basis reports on all the leading activities and policy decisions of the CP of Illinois.

4. The informant furnished lead information on the identity of the CPUSA political contact in the Democratic Party, [redacted].

5. The informant enabled the Bureau to have knowledge of all CPUSA fund movements and we continue to be in control of the CPUSA Solo and Reserve Funds.

6. Informant furnished extensive information concerning CPUSA efforts to invest monies and identify businesses and cooperating individuals.

b6  
b7C

7. Informant identified new CPUSA Financial Committee personnel.

8. Informant reported all key meetings of the CPUSA National Board, National Committee and Secretariat, and furnished detailed information regarding happenings as well as what happened during the course of outside meetings held during these periods.

9. Informant was most helpful in the CPUSA investigation of [redacted] case and was able to assist the Bureau through guidance by the contacting agents.

#### SUMMARY

Again, the year 1964 was a year of accomplishments in the Solo mission. These accomplishments are directly attributed to the initiative, imagination and dedication to their jobs by the responsible agents. The year 1964 saw the ouster of KHRUSHCHEV and a new leadership in the CPSU. It also saw attacks for the first time in a limited way on GUS HALL, on whom CG 5824-S\* and NY 694-S\* are dependent for their authority to continue the existence of the Solo mission. It also saw the continuance of the Sino-Soviet rift. These events of the past year placed additional strains upon the Solo operation which required the application of a high degree of initiative and judgment by the contacting agents in handling this informant under these circumstances.

It marked the obtaining of the CPUSA National Review Commission records. It marked progress in the development of the informant's wife so that she made her second Solo mission with CG 5824-S\*. It marked the laying of groundwork by the informant and responsible agents for additional Solo missions. It marked the accumulation of 16 volumes of high quality and expertly prepared information of top intelligence information obtained by this informant during the pertinent period. This information was disseminated at the highest levels of government and is undoubtedly being used in evaluating our foreign policy with many of the communist countries. It marked the continuation of our cover company and a planning period for the institution of a library of the informant's accumulation of records which could be of extreme value to the informant and to the Bureau. It marked a period of continued dedication and personal and monetary sacrifices on the part of the contacting agents in view of the informant's extension of his travels and activities.

Based upon these outstanding results in one of the primary and top operations of the Bureau, incentive awards are being recommended for these responsible personnel.

## SCREENING COMMITTEE INTERVIEW

On 3-17-65 Mr. Freyman was interviewed while attending Administrative School by [Redacted] and me acting as the Screening Committee, [Redacted] being on leave. Freyman makes a good, mature appearance; is obviously an experienced and competent field supervisor; and stated that he is interested in administrative advancement and available for transfer but that he is also keenly interested in his present assignment since he has the supervisory responsibility for one of the Bureau's top security informants and feels that this is a challenging assignment. He stated that despite the fact that he is 49 years of age he has no immediate plans for retirement when eligible since he has children to put through school and that he looks forward to remaining with the Bureau. He has about 19 men on his squad handling primarily matters pertaining to the Communist Party and he appears to be a specialist in Communist Party matters based on his many years' experience in this work. He stated that he has not had any difficulty in handling personnel and he has done a great deal of contact work in connection with the development of informants in the Chicago Office. He has not had very much experience in public speaking but feels that he could do so if called on. His health has been generally good although he has suffered for several years from an ulcer condition which he states he is able to maintain under control by diet and medication.

The Committee feels that while Freyman obviously is an experienced and capable supervisor and could undoubtedly undertake additional responsibility if called on to do so, that his greatest value to the Bureau at present is as a field supervisor, particularly in view of his handling of one of the Bureau's top security informants.

# PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee CARL N. FREYMAN #482-05-8617 Title SPECIAL AGENT  
 Rating Period: from 4/1/64 to 3/31/65

## RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:  
~~+~~ Outstanding (exceeding excellent and deserving of special commendation).  
~~E~~ Excellent.  
~~✓~~ Satisfactory (good or very good).  
~~-~~ Unsatisfactory.  
~~O~~ No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
  - Any element rated "Unsatisfactory" must be supported by narrative comments.
  - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

NOTE:

Chicago airtel 5/3/65 furnished information and explanations concerning a misidentification made by [redacted] who is Chicago's highest placed informant in the Illinois CP District. Informant identified a photograph of [redacted] as an individual he met at a CP Peace Commission meeting. This information was included in an office channelizing memorandum and later incorporated in Chicago reports 4/13/65 "Cominfil-Chicago Committee for a Sane Nuclear Policy" and 4/20/65 "Communist Party, USA, Illinois District." Later the informant met [redacted] at a Communist Party Jewish Commission meeting. He immediately recognized [redacted] as the individual he had met at the Peace Commission meeting and immediately notified Chicago Office and requested to see photographs of both individuals. On reviewing the photographs he identified [redacted], rather than [redacted], as the individual he met at the Peace Commission meeting. Chicago noted that the first time the informant saw the above persons was at the above-described meetings and, due to the similarity in the appearance and builds of these two individuals, that this was an honest misidentification and in no way reflects on his reliability. SAC, Chicago recommends no administrative action and Domestic Intelligence Division concurs. Copies of the "Communist Party, USA, Illinois District" report were corrected before dissemination at Seat of Government and this communication advises agencies which received copies of the "Cominfil - Chicago Chapter for a Sane Nuclear Policy" report of the correct information.

Recommendation

I have examined the explanations of the responsible agents and supervisor who signed these reports. The basis for this misidentification of [ ] for [ ] was information furnished to SA [ ] by [ ] who is the highest placed CP District informant and who in no cases in the past has ever misidentified an individual in attendance at meetings. This informant had never reported previously on either [ ] or [ ] and did not know them when [ ] appeared at the Board meeting on 3/2/65. He was identified as [ ] a member of the Peace Commission active in the SANE organization in the Skokie area.

b6  
b7C  
b7D

SA [ ] before disseminating the channelizing memorandum on 3/22/65 exhibited a photograph of [ ] to the informant. [ ] had the same given name as [ ] [ ] resided in Skokie, was a CP member, was known to be active in the Skokie SANE organization. Members of the Peace Commission had not been previously identified by other reliable informants. When the photograph was shown to [ ] he identified the participant in the Board meeting as [ ]

Based upon this identification SA [ ] prepared channelizing memorandum which was the basis of information found in the reports of SAs [ ] and [ ].

Subsequently, on 4/21/65, [ ] met with the Jewish Commission and noted that the same individual who was in attendance at the 3/2/65 Board meeting was in attendance at the Jewish Commission meeting. The informant at that time was introduced to this individual as [ ] and informant immediately reported this information to SA [ ] and asked to view photographs of both [ ] and [ ]. At the earliest possible time SA [ ] then exhibited the photographs of both of these individuals to the informant and he positively identified [ ] as the individual whom he had previously identified as [ ]

b6  
b7C

CG 67-832

After viewing the photographs of both of these individuals and noting the similarity of physical descriptions, age, residences and activities, it is understandable how the informant could have made the initial misidentification. It is further noted that the photo exhibited of [ ] was a profile photograph while the photograph of [ ] was a front view photograph permitting a more exact view of the individual [ ] had seen.

b6  
b7C  
b7D

After reviewing all of the facts and the extenuating circumstances surrounding this misidentification, I feel that the responsibility must be placed on the informant because he was shown a photograph of [ ]. The informant immediately called this error to the attention of this office once he had determined he had been in error and was most regretful of this occurrence. Nevertheless, he was admonished strongly by the contacting agent and was told that hereafter when photographs are shown to him if there is any doubt at all in his mind he should express it without any reservation as being a doubtful identification.

Insofar as the agents involved are concerned, I feel that SA [ ] handled this matter in a proper way by exhibiting a photograph of [ ] to the informant and exercised maximum diligence at all times. I do not feel or recommend administrative action in this matter. Insofar as SAs [ ] and Supervisor FRAYMAN are concerned, I likewise feel that they should not be held responsible as the information came from a most reliable informant and they had no way of cross checking it through any other informants. I therefore recommend no administrative action on them.

He will immediately correct Chicago files by separate communication and submit amended pages.

Dear Mr. Hoover:

Having reached the age of retirement with 23½ years of service, I respectfully request that consideration be given to this, my application for retirement, effective as of the close of business on August 13, 1965.

I feel that my retirement at this time is necessary as I have four children, one a sophomore in college who expects to study medicine, one a sophomore in high school, and two of grade school age. It is, therefore, a matter of financial necessity for me to make a change at this time.

My many years of service under your great leadership have afforded me rich and gratifying experiences which I will always cherish. The esprit de corps engendered through your leadership will never be duplicated in any other organization.

I assure you of my continued devotion and support in your relentless fight against subversion and crime.

I will be associated with the Jewel Tea Company, Chicago, one of the large national food chains. My address will be 514 North Prospect Manor, Mount Prospect, Illinois, 60056.

Sincerely yours,

(READ BEFORE INTERVIEWING)

The exit interview, to be beneficial, must be conducted as promptly as possible after receipt of resignation. Where it involves a clerical employee, it shall be conducted by the Agent supervisor under whose jurisdiction the employee works. Where it involves a Special Agent, each SAC shall personally conduct the exit interview. In the absence of the SAC, the exit interview should then be conducted by the official in the field office who is acting for him. In every instance the exit interview form shall indicate the name of the official who actually conducted the interview and the form must be signed by him on the reverse side in the space provided. There are to be no exceptions. The interview should be conducted in adequate privacy with adequate time. It should be designed to supplement resignation, to obtain real, motivating reason for resignation; to serve as basis for (1) accurate analysis of turnover, (2) determining necessary or desirable organizational improvements, and (3) permitting a recorded recommendation regarding future reinstatement. Many times, an exit interview, properly and promptly conducted, results in saving a valuable employee. On involuntary separations, the exit interview is designed to record the reason and any pertinent comments, it being assumed the recommendation would be unfavorable for reinstatement.

## RETIREMENT INFORMATION

Name: **Mr. Carl H. Freyman**Date: **7/20/65**

## APPLICATION

- ☐ The "Application for Retirement" will be forwarded by the Bureau to the Civil Service Commission (CSC) for approval.
- ☒ The enclosed "Application for Retirement" should be executed (or changed as indicated below) and promptly returned to the Bureau for forwarding to the Civil Service Commission (CSC) for approval. The information sheet attached to the application is for your records and you should detach it before sending in the application.

## DEPOSIT OR REDEPOSIT

Making either a deposit or redeposit is optional. Such amounts are paid directly by you to CSC; therefore, it is possible that you have already made the deposit or redeposit indicated below without the Bureau's knowledge, having dealt directly with CSC. If so, you may ignore this matter now. If not, after a review of the approximate annuity figures shown below, should you decide to make a deposit or redeposit, you should request Bureau to forward Standard Form 2803 to you. This form should be returned to the Bureau.

- ☒ Not applicable
- ☐ The deposit you may owe is a payment to the retirement fund to cover a period of service during which no retirement deductions were withheld from salary. Credit is given for service not covered by deductions; however, if the deposit is not paid, your annuity will be reduced each year by 10% of the amount due as deposit. The amount you may owe is approximately \$ \_\_\_\_\_.
- ☐ The redeposit you may owe is a payment to the retirement fund to cover a period of service for which retirement deductions were withheld from your salary but later refunded to you following your separation from civilian employment. No credit is allowed in the computation of annuity for the period of service covered by the refund unless redeposit is made. The amount you may owe is approximately \$ \_\_\_\_\_.

## ANNUITY

Annuities are computed on full months of service. The estimated annuity below is based on your ☒ Bureau service, ☐ other civilian Government service and/or ☐ military service known to us, totalling **23** years, **8** months and **28** days. CSC makes the official computations and determines whether prior service is creditable, advising you direct the exact amount of your annuity. The figures below are only estimates, and they do not take account of deduction for health insurance coverage. You should receive the first annuity check about two months after separating from the Bureau's rolls.

## TYPES OF ANNUITY

## Married applicants only

plus annuity for each eligible child.

## SEPARATION FROM ROLLS

- \* It is satisfactory to cease active duty on **8/13/65**, and the annuity will commence **8/28/65**
- ☐ immediately following the cease-active-duty date.
- ☒ immediately following the expiration of current accrued annual leave on **8/27/65** earned through **8/13/65**
- Item 4 under B, Date of Final Separation, on the retirement application, should show separation date from the Bureau to be at close of business \_\_\_\_\_, and ☐ should be changed accordingly ☐ provided no annual leave is used by you subsequent to \_\_\_\_\_.

- ☐ If retirement is for disability, separation takes effect after the approval of CSC is received by the Bureau or after the expiration of accrued sick leave, whichever occurs later. Under Internal Revenue Service regulations, some sick pay and disability income is not taxable; thus, you may be able to exclude from Federal income tax liability all or a part of the payments you receive for sick leave used and for annuity received as a disability annuitant. Any such exemption would terminate when you reach normal retirement age. Questions you may have as an annuitant regarding your income tax liability or privileges can be answered by the Internal Revenue Service.

- ☒ You will receive a lump-sum payment for your accumulated annual leave in the approximate amount of \$ **4900**

**\*To earn annual leave for the pay period ending 8/27/65, you must either be on active duty on 8/27/65 or on current accrued leave earned in a prior pay period. In addition, separations for retirement must be at the close of business of the date indicated. If your separation is effective 8/31/65, you will complete another month of service, thus increasing the monthly annuities indicated above by about \$3. This could be accomplished by ceasing active duty at 4 p. m. on 8/18/65. Your decision may be shown by indicating 8/27/65 or 8/31/65 under Item 4 under B on the application.**

## FEDERAL EMPLOYEES' GROUP LIFE INSURANCE ACT

- ☐ Records show you executed Standard Form 53, "Waiver of Life Insurance Coverage."
- ☒ Your coverage is in the amount of \$ 17,000. You may continue this group insurance coverage at no premium cost following retirement or convert the insurance to an individual life insurance policy without medical examination. If converted, the double indemnity and dismemberment protection stops, and you will pay the usual premium charged by the company for a person of your age and class of risk. If you elect to keep the group insurance, the \$ 17,000 protection continues until you are age 65. At that time this amount begins to reduce at the rate of 2% per month until you are about 68 years and 2 months of age. If you are now 65 or over, the same reduction process occurs, the maximum reduction being reached in three years and two months. Coverage in the reduced amount (25% of face value) continues at no cost as long as you remain a retired annuitant. If you wish to convert the group life coverage, the Bureau should be advised immediately. Otherwise, the original of Standard Form 56, Agency Certification of Insurance Status, will be forwarded to CSC and a copy will be forwarded to you by the Bureau at a later date.

## DESIGNATION OF BENEFICIARY, STANDARD FORM 54, FEDERAL EMPLOYEES' GROUP LIFE INSURANCE ACT OF 1954

Designation filed:

- ☒ No, but not necessary as beneficiary will be in order of precedence used by United States Government, i.e., (1) widow or widower, (2) children, (3) parents, etc.
- ☐ Yes; beneficiary designated as \_\_\_\_\_  
This designation is being forwarded to CSC and it will remain valid unless changed or canceled. Contact CSC for any change desired following retirement.

## FEDERAL EMPLOYEES HEALTH BENEFITS ACT OF 1959

- ☐ Records show you elected not to enroll
- ☒ Records show you enrolled in the following plan:
- ☐ Government-wide Service Benefit Plan (Blue Cross - Blue Shield)
  - ☐ Government-wide Indemnity Benefit Plan (Aetna Life Insurance Company)
  - ☐ Comprehensive Medical Plan
  - ☒ Special Agents Mutual Benefit Association (SAMBA)

**Note:** The life insurance you have under this plan will continue in force for 6 months following your last semiannual premium payment. If you desire to continue the protection beyond that time, you may do so without a physical examination. You may elect to continue up to age 70 at group rates half of the total amount of your SAMBA life insurance and you can, if you wish, convert to a regular policy up to 50 per cent of the original total; at age 70, you may convert the remaining 50 per cent. Your desires in respect to your SAMBA life insurance at retirement should be communicated in writing to SAMBA, 1720 Massachusetts Avenue, Northwest, Washington, D. C. 20036. If you have Dependents Group Life Insurance, this will continue until the next semiannual premium is due (1/10 or 7/10), with a 31-day grace period. You may convert the insurance on your spouse to an individual policy with The Prudential Insurance Company of America without a medical examination. The premium will be the same as if your spouse applied for an individual policy at that time. You may make the necessary conversion arrangements through the nearest Prudential Office.

Unless you cancel your present enrollment, you will remain under your health benefits plan after retirement, and your enrollment will be transferred to CSC. The cost of your share of the plan will be deducted from your annuity by CSC.

Enrollment of an employee who dies while he is enrolled "for self and family" continues for his family if at least one family member is entitled to an annuity as the survivor. If the survivor annuitant is the only eligible family member, the retirement system will automatically change the enrollment to "self."

The original of Standard Form 2810, "Notice of Change in Enrollment Status," will be forwarded to you by the Bureau at a later date.

## SPECIAL ACCIDENT AND TRAVEL INSURANCE (SATI)

If you are a member of SATI, after your retirement you may continue but not increase coverage up to a maximum of \$25,000.00 at the rate of \$2.25 per thousand. If you have coverage on your wife and children, it will continue only until the next premium is due, and cannot be renewed. Further information on SATI can be secured by writing Parker and Co. of D. C., Inc., 1001 Connecticut Avenue, N. W., Washington, D. C. 20036.

## ENCLOSURES

- ☒ Standard Form 2801, "Application for Retirement."
- ☒ Standard Form 8, "Notice to Federal Employee About Unemployment Compensation."
- ☐ Pamphlet, "Your Retirement System."
- ☐ Standard Form 2801-B, "Physician's Statement," for disability retirement.

# PERFORMANCE RATING GUIDE FOR INVESTIGATIVE PERSONNEL

(For use as attachment to Performance Rating Form No. FD-185)

Name of Employee **CARL N. FREYMAN** #482-05-8617 Title **SPECIAL AGENT**  
 Rating Period: from **4/1/65** to **8/16/65**

## RATING GUIDE AND CHECK-LIST

Note: Only those items having pertinent bearing on employee's performance should be rated. All employees in same salary grade should be compared.

- Rate items as follows:  
 + Outstanding (exceeding excellent and deserving of special commendation).  
 E Excellent.  
 ✓ Satisfactory (good or very good).  
 - Unsatisfactory.  
 O No opportunity to appraise performance during rating period.

Guide for determining adjective rating:

- "Outstanding" adjective rating requires (A) that all rated elements be "+" and (B) that each and every rated element be factually justified by narrative detail on reverse of Form FD-185.
- "Excellent," "Satisfactory" or "Unsatisfactory" adjective ratings will depend upon the composite result of evaluating all rated elements rather than following any mechanical formulas; however, for an employee to be rated "Excellent" he must not be rated unsatisfactory on any performance evaluation factors on the rating guide and check-list and must be rated "Excellent" or "Outstanding" on the majority of such rating factors. Good judgment must be exercised to insure that adjective rating is reasonable in the light of elements rated.
  - Any element rated "Unsatisfactory" must be supported by narrative comments.
  - An "official" adjective rating of "Unsatisfactory" must comply with the requirements described on the reverse of form FD-185.

# INSTRUCTIONS TO EMPLOYING AGENCY

## COMPLETION OF CERTIFICATION

1. This Certification must be completed in triplicate whenever an employee's insurance terminates for:
  - a. Death.
  - b. Retirement on an immediate annuity with 12 or more years' creditable service, of which at least 5 years are civilian service, or on account of disability. (An immediate annuity is one which begins to accrue not later than 1 month after the date the insurance would normally cease.) In a disability retirement case, do not complete S.F. 56 until a finding of disability has been officially made and the employee's separation is in order.
  - c. Completion of 12 months in a non-pay status or separation, and the employee is receiving benefits under the Federal Employees' Compensation Act.
  - d. Any other reason, if the employee desires to convert his group life insurance, except under the following circumstances:
    - (1) Employee waived on S.F. 53;
    - (2) If it is known that, within 3 calendar days after the date the insurance terminated, the employee will return to Government service in the same or another position in which he will be eligible to reacquire Federal Employees' Group Life Insurance;
    - (3) More than 75 days have elapsed from the date insurance terminated unless specific request is made therefor by the Civil Service Commission or the Office of Federal Employees' Group Life Insurance.
2. If insurance terminated on account of death, indicate whether the employee had filed an Application for Retirement (S.F.2801) with the Civil Service Commission.
3. In item 7, give date of Notice of Conversion Privilege (S.F. 55), except that if this form (S.F. 56) is issued in lieu of S.F. 55, give current date. In case of death, leave this item blank.

## DISPOSITION OF CERTIFICATION

1. Death of employee—
  - a. Send duplicate copy of Certification immediately to the Office of Federal Employees' Group Life Insurance.
  - b. Keep the original (preferably in the Official Personnel Folder or its equivalent) for attachment to a claim for death benefits (Form FE-6) when received.
  - c. If no claim is received, send the original Certification, upon request, to the Office of Federal Employees' Group Life Insurance.
  - d. If the deceased employee has a current designation of beneficiary on file, the designation (S.F. 54) must be attached to the original Certification when it is sent to the Office of Federal Employees' Group Life Insurance.
2. Retirement of employee—
  - a. If the employee is applying for an immediate annuity (with 12 or more years' creditable service, of which at least 5 years are civilian service or for disability), attach the original Certification and current designation of beneficiary, (S.F. 54), if any, to the application for retirement and give duplicate copy of Certification to the employee. [NOTE: In a disability retirement case where the application has already been sent to the Civil Service Commission, attach the original S.F. 56 (and S.F. 54, if any,) to the "FINAL" Individual Retirement Record (S.F. 2806).]
  - b. If the employee prefers to convert his group insurance to an individual policy, give him the original and duplicate copy of the Certification. Retain S.F. 54, if any.
3. Employee in receipt of compensation benefits—
  - a. If the employee is receiving benefits under the FEDERAL EMPLOYEES' COMPENSATION ACT on account of a job incurred disease or injury to himself, have him complete appropriate box on reverse side of the original Certification. Send original Certification and current designation of beneficiary (S.F. 54), if any, to the U. S. CIVIL SERVICE COMMISSION, BUREAU OF RETIREMENT AND INSURANCE, WASHINGTON 25, D. C. and give duplicate copy of Certification to the employee.
  - b. If the employee prefers to convert his group insurance to an individual policy, give him the original and duplicate copy of the Certification. Retain S.F. 54, if any.
4. All other cases—

Upon request, give the employee the original and duplicate copy of the Certification or mail them to him.
5. In all cases—

Retain file copy of the Certification in the employee's Official Personnel Folder or its equivalent.

## PROMPT CERTIFICATION REQUIRED

The time in which an employee may convert his group life insurance to an individual policy is limited. This Certification must be completed and delivered or mailed to him promptly.

INDICATE, BY SIGNING YOUR INITIALS IN THE APPROPRIATE BOX BELOW, THE TYPE OF ANNUITY YOU WANT TO RECEIVE. READ THE EXPLANATIONS AND CONSIDER THE MATTER CAREFULLY. NO CHANGE WILL BE PERMITTED AFTER AN ANNUITY HAS BEEN GRANTED. IF YOU WANT AN ANNUITY WITH A SURVIVOR BENEFIT, BE SURE TO GIVE THE OTHER INFORMATION CALLED FOR.

#### F. TYPES OF ANNUITY: MARRIED APPLICANTS ONLY

1. ☐ INITIALS **ANNUITY WITH SURVIVOR BENEFIT TO WIDOW OR WIDOWER**

SPECIFY THE PORTION OF YOUR ANNUITY YOU WANT USED AS THE BASE FOR YOUR WIDOW'S (OR WIDOWER'S) SURVIVOR ANNUITY.

If you want all your annuity used as the base for the survivor benefit, write the word "all" in the box below. If you want only part of your annuity used as the base for the survivor benefit, write the yearly amount of your annuity you want used.

*all*

THE SURVIVOR'S ANNUITY WILL BE 55% OF ALL OR WHATEVER PORTION OF YOUR ANNUITY YOU SPECIFY AS THE BASE FOR HER (OR HIS) BENEFIT.

- If you are married, you will receive this type of annuity unless you choose the annuity in F. 2.

→ The annuity payable to you during your lifetime will be reduced by 2½% of any amount up to \$3,600 a year used as the base for the survivor benefit, plus 10% of any amount over \$3,600 so used.

- If you retire for total disability before age 60 and get a guaranteed minimum disability annuity, you may use all or any part of your "earned" annuity as the base for the survivor benefit. You cannot use any extra annuity which may be payable to make up the guaranteed minimum annuity.

- If your wife (or husband) should die before you, no change in type of annuity will be permitted, your annuity will not be increased, nor may you name any other person as survivor.

→ The survivor's annuity will begin upon your death and end when she (or he) dies or remarries.

2. ☐ INITIALS **ANNUITY WITHOUT SURVIVOR BENEFIT**

(I do not desire my wife (or husband) to receive a survivor annuity benefit after my death.)

→ If you choose this type, your wife (or husband) cannot be paid a survivor annuity after your death.

- This type provides annuity payments to you only.

#### G. TYPES OF ANNUITY: UNMARRIED APPLICANTS ONLY (Including Widowed and Divorced)

1. ☐ INITIALS **ANNUITY WITHOUT SURVIVOR BENEFIT**

- If you are not married, you will receive this type of annuity unless you choose the annuity in G. 2.

- This type provides annuity payments to you only.

2. ☐ INITIALS **ANNUITY WITH SURVIVOR BENEFIT TO NAMED PERSON HAVING AN INSURABLE INTEREST**

SPECIFY THE NAME, RELATIONSHIP AND DATE OF BIRTH OF THE PERSON YOU WISH TO RECEIVE THE SURVIVOR ANNUITY

NAME OF PERSON (First, middle, last)

RELATIONSHIP

DATE OF BIRTH (Mo., day, yr.)

SEE UNMARRIED EMPLOYEES UNDER INFORMATION REGARDING SURVIVOR ANNUITIES ON THE ATTACHED INFORMATION SHEET FOR EXPLANATION OF REDUCTION IN YOUR ANNUITY.

- This type is available to all retiring *unmarried* employees who are in good health.

- It provides a reduced annuity to you and a survivor annuity to the person named as having an insurable interest.

- The survivor's annuity will begin upon your death and end when she (or he) dies.

- The survivor's annuity will be 55% of the reduced annuity you receive.

- If you choose this type, you will have to undergo a medical examination which will be arranged by the Civil Service Commission at no cost to you.

- If the person named as having an insurable interest should die before you, no change in type of annuity will be permitted, your annuity will not be increased, nor may you name any other person as survivor.
